### Nassau Country Club

Recommended for ages 5 through 10. A young child is sexually assaulted. The story, in prose, goes through the thoughts, feelings and anxiety experienced by young people who are victims of sexual abuse. Triumphant by discovering her own voice, the girl is able to talk about the trauma and in turn advises other young people to tell. This book is accompanied by a note to parents by a renowned Canadian social worker, Marion Soloway M.S.W. R.S.W.

### U.S. Marines In Vietnam: The War That Would Not End, 1971-1973

From "America's nerviest journalist" (Newsweek)--a breath-taking epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (The New York Times Book Review) Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made The Right Stuff a classic.

### The World in Half

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American

culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

The Gender of Crime introduces readers to how gender shapes our understanding of every aspect of crime—from defining what crime is to governing how crime is punished. The second edition of this award-winning book maintains the accessible, reader-friendly narrative of the first edition with key updates and new material throughout, including increased focus on the intersections of race, class, gender, and sexuality in crime and punishment; more attention to LGBTQ issues; additional coverage of gender and crime on college campuses; and more. This dynamic and provocative book illustrates how gender is central to the definition, prosecution, and sentencing of crimes, that it shapes how victimization is experienced and understood, and how it structures the institutions of the criminal justice system and the experiences of workers within that system. The Gender of Crime demonstrates that crime, victimization, and crime control are never generic—they are instead produced and experienced by gendered (and raced, and classed, and sexualized) actors within contexts of social inequality. This book highlights key concepts and encourages readers to think through a range of compelling real-life examples, from school violence to corporate crime. The second edition of The Gender of Crime is essential reading for students of gender and sexuality, sociology, criminology, and criminal justice.

Revision No. 1 (June 24, 2018) corrects index page numbers and adds or changes minor content.\* Old Jamestown, Missouri, in far north St. Louis County, has a long and rich history that includes an American Indian settlement associated with Cahokia Mounds, land grant holders of English and Scottish heritage who arrived in the late 1700s, German immigrant farmers who came during the 1800s, and prominent wealthy families who arrived in the mid-1900s. As early as 1805, Old Jamestown ferries crossed the Missouri River to provide connections from St. Louis and Florissant to St. Charles County, which is home to Portage des Sioux, an early military outpost, and the City of St. Charles, Missouri's first state capitol. With only two miles separating the Missouri and Mississippi Rivers just to the north, Old Jamestown was also connected to Illinois locations. Today Old Jamestown has some subdivisions but development is limited because of the karst (sinkhole) topography.\*Revision 1 changes are in a 5-page pdf file linked to [www.oldjamestownassn.org](http://www.oldjamestownassn.org)Royalties for this book are donated to the Old Jamestown Association.

This is the HARDBACK version. "Use the combos, keep the feet light. This is it." That's boxing champ Julius, psyching himself up for a showdown with, of all people, unstoppable killer Jason Voorhees in Friday the 13th Part VIII: Jason Takes Manhattan. Perhaps not familiar with the fact that a goalie mask is meant to stop rock hard vulcanized rubber flying at 100 mph, his fists prove laughably ineffective. Jason's though, are anything but. He punches Julius's head clean off with one right cross. A fist might seem like unconventional weaponry compared with the knives and axes usually deployed by unspeaking, unfeeling, unstoppable killers in horror films. And it is. But it doesn't even scratch the surface when it comes to weird ways people have been killed in horror. Horror movie victims have had ears of corn buried in their backs, they've been decapitated by basketballs, lacerated by avant-garde sculptures, skewered by mounted deer antlers, bludgeoned by pogo sticks, and punctured with unfurled umbrellas. Death by Umbrella! The 100 Weirdest Horror Movie Weapons showcases these oddball deaths and some even stranger ways killers have gone about their grisly business - MOs that would leave even the most seasoned coroner shaking their head provided, of course, that it's still attached, for in the world of horror, no one is safe. Authors Christopher Lombardo and Jeff Kirschner are Toronto horror journalists and hosts of the Really Awful Movies Podcast, a weekly celebration of low budget genre film. They also review horror films new and old at [ReallyAwfulMovies.com](http://ReallyAwfulMovies.com).

Angel in the Whirlwind is the epic tale of the American Revolution, from its roots

among tax-weary colonists to the triumphant Declaration of Independence and eventual victory and liberty, recounted by Benson Bobrick, lauded by The New York Times as “perhaps the most interesting historian writing in America today.” Overwhelmed with debt following its victory in the French and Indian Wars, England began imposing harsh new tariffs and taxes on its colonists in the 1760s. Rebellion against these measures soon erupted into war. Bobrick thrillingly describes all the major battles, from Lexington and Concord to the dramatic siege of Yorktown, when the British flag was finally lowered before patriot guns. At the same time he weaves together social and political history along with the military history, bringing to life not only the charismatic leaders of the independence movement, but also their lesser-known compatriots, both patriot and loyalist, English and American, whose voices vividly convey the urgency of war. Illuminated by fresh insight, *Angel in the Whirlwind* is a dramatic narrative of our nation’s birth, in all its passion and glory.

## **A Brief History of the 6th Marines**

"In recounting the rich narratives of key biblical figures - from Adam and Eve to Noah, Cain, Abraham, Moses, Job, and Jesus - *In the Whirlwind* paints a surprising picture of the ambivalent, mutually dependent relationship between God and his peoples. Taking the Hebrew and Christian Bibles as a unified whole, Burt traces God's relationship with humanity as it evolves from complete harmony at the outset to continual struggle. In almost every case, God insists on unconditional obedience, while humanity withholds submission and holds God accountable for his promises.

This book presents a comprehensive, practical approach to the evaluation of movement disorders using phenomenological basic principles, new discoveries in phenomenological research, and core values of outpatient neurology. *Movement Disorders Phenomenology* begins with an overview of phenomenology and common approaches to movement disorder patients. Subsequent chapters then accurately and concisely relay information on major hypokinetic disorders such as atypical Parkinsonism, idiopathic Parkinson’s disease, cortical myoclonus, and complex motor tics. Expertly written text is further supplemented by patient vignettes at the beginning of select chapter that focus the reader's attention and highlight the urgency of the problem. These high quality videos aid in the astute clinical diagnosis of many movement disorders that are still largely dependent on visual pattern recognition in the clinic. The book closes with a timely discussion on the role of genetics in movement disorders. Written for the practicing physician, *Movement Disorders Phenomenology* is an indispensable reference for neurology residents, general neurologists, movement disorders fellows and clinicians, and to any clinician who encounters and evaluates patients in the outpatient arena.

The Wolfman is one of the great classics of modern horror. Now, based on the upcoming film, is a terrifying new novelization written by Jonathan Maberry, based on the screenplay by Andrew Kevin Walker and David Self Based on a motion picture screenplay by Curt Siodmak Lawrence Talbot's childhood ended the night his mother died. After he left the sleepy Victorian hamlet of Blackmoor, he spent decades recovering and trying to forget. But when his brother's fiancée tracks him down to help find her missing love, Talbot returns home to join the search. He learns that something with brute strength and insatiable bloodlust has been killing the villagers, and that a suspicious Scotland Yard inspector has come to investigate. As Talbot pieces together the gory puzzle, he hears of an ancient curse that turns the afflicted into werewolves when the moon is full. Now, if he has any chance at ending the slaughter and protecting the woman he has grown to love, Talbot must destroy the vicious creature that stalks the woods surrounding Blackmoor. But as he hunts for the nightmarish beast, a simple man with a tortured past will uncover a primal side to himself . . . one he never imagined existed.

### **Inspiration for 50 Years**

"Wish you could find giggle-inducing tween books for girls?" "Tired of young teen fiction that drags you down? Then try" *The Day I Washed My Face in the Toilet* A laugh-out-loud novel that's perfect for girls and young teens! All 14-year-old Monica Bloomfield wants is to spend August at a science camp far away from her idiot sister and weird little brother. Trouble is, Monica's being dragged into the wedding party of her crabby old great aunt who lives in England-and if she wants to earn that science camp, she has to keep her siblings in line for the entire trip, plus convince her crazy Grandma to move into a nursing home pronto. Monica's determined to succeed, but things start out badly-and go downhill fast. First, her hyperactive brother overdoses on caffeine right before their eight-hour flight to England. Then a botched wine-tasting party ends so badly that even a policeman is left speechless (and in need of a new uniform). Getting into science camp isn't going to be easy-especially with a rampaging bull, drunk parrot and the most gorgeous guy in the universe standing in her way. *"The Day I Washed My Face In The Toilet"* is a fast-paced tale about a girl trying to have a positive impact on her world and see social injustices corrected-with hilarious results, and one badly-mangled bridesmaid's dress. A Personal Note From The Author: Unfortunately, I came up with the title of this book-and a pretty big chunk of the plot-line-the day I washed my face in a toilet. In my defense, we were living in the middle of nowhere, and a brutal storm had left us with no hydro, no heat, no lights and no running water for almost a week. I was cold and grimy, and by the fifth day I snapped. I pulled the top off the toilet tank and peered in. The water had been sitting there for days, so it smelled really funky. Also, every chain and bobbly thing in there was covered with a thick layer of (and here, I'm using the scientific term) bleck. Still, I was desperate. So I used the slimy toilet tank water and had what was probably the fastest sponge bath on record. Sadly, the curry incident happened to me, too. Shortly before I boarded an eight-hour flight from England to Canada, a friend took me out for a huge curry feast. I'd never had curry, and my intestines weren't sure what to do with the stuff, so they promptly rejected it. I developed a massive case of explosive curry farts. I kept my coat zipped up for the entire flight home, hoping that would hide the smell. It didn't. Toxic gasses trickled out through the neck of the coat, assaulting me and all of the passengers who were stuck sitting around me. Ironically, the coat made the problem worse, because it made me sweat-I was leaking curry vapors out of every pore of my body. This book is a labor of love-but it's laced with some of my most cringe-worthy experiences, too! "If you're on the look-out for great books for girls or young teens-and you don't need vampires or zombies to make you happy-then this one's for you!" Want to read more? ## **The Wolfman**

In early 1963, Jake Townley had very little to show for a man in his early 40s. His business efforts had not met with success and his family barely had enough food on the table. Yet, he placed his faith in the Lord. And once the Lord moved, a success story began to unfold and continues today - a story of overcoming - a story of encouragement - a story of tenacity - a story of the Baptism of the Holy Spirit and Fire - a story of empowerment that leads to excellence - a story of love for family, the Savior and of the fellow man - a story of vision, staying power and grit, persistence, consistency and the value of work - a story of faith - and a story of blessing. Again, 50 years later, the faith operation component of Townley Engineering & Manufacturing Company is as strong as when Jake placed his foot on the sandy soils of East Lake Weir, Florida. And one man's stubborn faith has positively affected thousands of men, women and children in a number of communities across the United States and the world. If The Lord Wills, the future for the Townley Company and for its team of dedicated people will be a continuation of the faith journey which began 50 years ago. Toro Townley's outlook for the future is bright. "We have experienced monumental challenges in the past. We now have monumental opportunities in the future." This book is a written testament to the history of the Townley Company and its amazing journey thus far as the company prepares for the future.
