“In twenty-nine separate but ingenious ways, these stories seek permanent residence within a reader. They strive to become an emotional or intellectual cargo that might accompany us wherever, or however, we go. . . . If we are made by what we read, if language truly builds people into what they are, how they think, the depth with which they feel, then these stories are, to me, premium material for that construction project. You could build a civilization with them.” —Ben Marcus, from the Introduction Award-winning author of Notable American Women Ben Marcus brings us this engaging and comprehensive collection of short stories that explore the stylistic variety of the medium in America today. Be warned—in your journey through this volume you will encounter many true stories. Some will make you laugh, others could make you cry, and all are enough to thoroughly embarrass the authors. These stories would never be allowed to see the light of day if they did not open the door to important truths about love. The authors speak to you, sometimes in their own voices, sometimes through dialogue, and sometimes through fiction. You will recognize yourself in their struggles and triumphs. Can the good life be attained without true love? What is jealousy? Is it possible to be a feminist and a heterosexual lover at the same time? What is the logic of the lovers’ quarrel? Is rough sex immoral? Is pornography a great lover’s friend or a foe? What did Plato, Aristotle, Kant, Nietzsche, Russell, Beauvoir, and other great geniuses of Western history have to say about what goes on under the boardwalk? Is there any freedom in love? Is erotic desire a function of body or spirit? What is the best kind of love? Is there such a thing as a soul mate? You will have to face these questions and more when you dare to ask what philosophy can tell you about your lover. Everyone who has experienced it knows that romantic love truly is a “crazy little thing.” It keeps us awake at night and makes us do things we would never have dreamed we were capable of. In this volume twenty-five philosophy professors are gathered together to discuss various connections between romantic love and philosophy. They have left their tweed jackets and spectacles behind. It is as

though you have run into them by chance at a bar in some far away city where they are at ease, ready to tell you what they really think. Perhaps you have taken a few philosophy classes, or perhaps you always kind of wanted to. This is your chance to enjoy some deep reflection on one of life's greatest mysteries without any of the scholarly jargon, the academic pretenses, or the impossible exams. This volume will explain the lasting value of their ideas in simple, modern terms without the use of a single footnote.

For the first time, the full origin story of Gin Blanco's transformation into the fearsome assassin known as the Spider—book ten in the red-hot Elemental Assassin urban fantasy series. How did I end up in a career where I always have blood on my hands? Well, let me tell you a story about an assassin who thought she could do no wrong. . . . Ten years ago. A blistering hot August night. I remember like it was yesterday. The night I, Gin Blanco, truly became the Spider. Killing people is what I

do best, especially now that I've honed my Ice and Stone magic. But back then, I had yet to learn one very important rule: arrogance will get you, every single time. This particular job seemed simple: murder a crooked building contractor with ties to ruthless Fire elemental Mab Monroe. My mentor, Fletcher Lane, had some misgivings, but I was certain that I had the situation under control . . . right up until I exposed my weaknesses to a merciless opponent who exploited every single one of them. There's a reason assassins aren't supposed to feel anything. Luckily, a knife to the heart can fix that problem, especially when I'm the one wielding it. . . .
