It has long been my belief that the greatness of America has arisen in large part

out of the diversity of her peoples. Before the war, peoples of Japanese ancestry were a small but valuable element in our population. Their record of law-abiding, industrious citizenship was surpassed by no other group. Their contributions to the arts, agriculture and science were indisputable evidence that the majority of them believed in America and were growing with America. Then war came with the nation of their parental origin. The ensuing two and a half years have brought heartache: to many in our population. Among the casualties of war has been America's Japanese minority. It is my hope that the wounds which it has received in the great uprooting will heal. It is my prayer that other Americana will fully realize that to condone the whittling away of the rights of any one minority group is to pave the way for us all to lose the guarantees of the Constitution. As the President has said "Americanism is a matter of the mind and heart: Americanism is not, and never was, a matter of race or ancestry." This truth is eloquently illustrated by the photographs on the following pages. Harold L. Ickes Secretary of the Interior July, 1944

that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.

With a foreword by Tim Wise, *Raising White Kids* is for families, churches, educators, and communities who want to equip their children to be active and able participants in a society that is becoming one of the most racially diverse in the world while remaining full of racial tensions. For white people who are committed to equity and justice, living in a nation that remains racially unjust and deeply segregated creates unique conundrums. These conundrums begin early in life and impact the racial development of white children in powerful ways. What can we do within our homes, communities and schools? Should we teach our children to be "colorblind"? Or, should we teach them to notice race? What roles do we want to equip them to play in addressing racism when they encounter it? What strategies will help our children learn to function well in a diverse nation? Talking about race means naming the reality of white privilege and hierarchy. How do we talk about race honestly, then, without making our children feel bad about being white? Most importantly, how do we do any of this in age-appropriate ways? While a great deal of public discussion exists in regard to the impact of race and racism on children of color, meaningful dialogue about and resources for understanding the impact of race on white children are woefully absent. *Raising White Kids* steps into that void.

A Child's Introduction to African American History

For Katherine and her three American children, Greece was meant to be a one-year refuge from the late 1930's Depression. Her husband's family-owned orchard should have provided for their well-being, but instead embroiled them in legal debate. WWII Axis bombings of Kalamata prompted the young family to flee to the remote mountain village of Katherine's birth, but Nazi invasion-and seemingly endless occupation of their village and their house-trapped them there until the war's end. Told through the eyes of John, Katherine's youngest child, he shares a universal story of fear and frustration faced by all innocent civilians during war in
