When it was passed in 1789, the Constitution set out the boundaries not only for a new government but for a new capital city as well. At the time, the new District of Columbia covered 5,000 acres, dominated by marshland on the south, pastureland on the area that is now the Mall, farms near the White House and Capitol Hill, and undeveloped woods throughout. Covering Capitol Hill, the Mall, the Old Downtown area, the Ellipse, Lafayette Square, and Foggy Bottom, this engaging photographic history and walking tour documents how the Federal City grew from farmland to world capital. Striking images and detailed captions tell the fascinating stories behind many of the famous and the not so famous buildings and monuments that cover the D.C. landscape, from Union Station and the Capitol to the White House and the Watergate Hotel and many important sites in between.

Portsmouth Black Heritage Trail

From Bourbon Street to Pirate's Alley and beyond—a local historian takes you on a

walking tour of the historic French Quarter in New Orleans. Walking through the French Quarter can overwhelm the senses—and the imagination. The experience is much more meaningful with knowledge of the area's colorful history. For instance, the infamous 1890 "separate but equal" legal doctrine justifying racial segregation was upheld by the Louisiana Supreme Court at the Cabildo on Jackson Square. In the mid-twentieth century, a young Lee Harvey Oswald called Exchange Alley home. One of New Orleans's favorite cocktails—the sazerac—would not exist if Antoine Peychaud had not served his legendary bitters with cognac from his famous apothecary at 437 Royal. Local author Andy Peter Antippas presents a walking history of the Vieux Carre, one alley, corner and street at a time.

The Walking Tour

"For nearly a decade, Pulitzer prize-winning critic Justin Davidson has explained New York, the city, to his readers at New York, the magazine. He has visited new and preserved buildings, explored neighborhoods in mid-transformation; interviewed architects, developers, and urban thinkers; and tracked the city's constant change. Now, he distills those experiences into *Magnetic City*, an ambler's guide to New York--the city around us, the one that's lost, and the one that's still to come. Essayistic in form, historical in scope, and filled with references to literature, music, art, and architecture, *Magnetic City* offers first-time visitors and lifelong residents a new way to see New York"--

Letters from a Walking Tour

During the summer of 1818, John Keats and Charles Brown left Lancaster on a 2,000 mile walking tour of the English Lake District and Scotland. Most likely Brown's idea, he planned to document everything he saw on his trip. He wrote in a letter to a friend, "I have many reasons for going wonder-ways: to make my winter chair free from spleen; to enlarge my vision; to escape disquisitions on poetry and mindless criticism; to promote digestion and economise shoe leather." This book contains a foreword by Jack Stillinger and twelve letters written during the walking tour. Keats provides striking passages on the mountains, waterfalls, and lakes he experienced on his journey, and he philosophizes on landscape scenery and the imagination. In addition to the twelve letters, a handful of articles Brown wrote after the journey are also included. Some letters are addressed to Tom; George and Georgina (Keat's brother and sister-in-law); his sister Fanny; and John Hamilton Reynolds and Benjamin Bailey (two close friends). Containing detailed nature descriptions, many of the striking passages discuss mountains, waterfalls, and the Lakes of Scotland. Keats also philosophizes on the intellectual tone of the landscape and the relation of scenery to the imagination. The book documents day-to-day experiences mixed with anecdotes, jokes, and puns. The texts of the letters have been modernized in punctuation, spelling, and other nonsubstantive features. Printed on handmade paper, this is the first book in a series to display the arts of fine bookmaking. It includes a portrait frontispiece, a facsimile letter, and a map, all tipped in. The book was designed by Jerry Kelly and printed by Daniel Kelleher at Wild Carrot Letterpress, with the tip-ins printed by the Stinehour Press. It accompanies the exhibition held from September 19 to November 22, 1995, and was a winner of the AIGA Fifty Books of the Year Award.

Rummaging through his papers in 1958, Ezra Pound came across a cache of notebooks dating back to the summer of 1912, when as a young man he had walked the troubadour landscape of southern France. Pound had been fascinated

with the poetry of medieval Provence since his college days. His experiments with the complex lyric forms of Arnaut Daniel, Bertran de Born, and others were included in his earliest books of poems; his scholarly pursuits in the field found their way into *The Spirit of Romance* (1910); and the troubadour mystique was to become a resonant motif of the *Cantos*. In the course of transcribing and emending the text of "Walking Tour 1912", editor Richard Sieburth retraced Pound's footsteps along the roads to the troubadour castles. "What this peripatetic editing process revealed", he writes, "was a remarkably readable account of a journey in search of the vanished voices of Provence that at the same time chronicled Pound's gradual discovery of himself as a modernist poet".

This two-color book features 30 routes, a clear neighborhood map for each walk, black-and-white photographs, and critical public transportation information for every trip. Route summaries make each walk easy to follow, and a "Points of Interest" section outlines each walk's highlights. Walking Broadway encapsulates the architectural history of Manhattan with fourteen walks that guide readers along New York's most famous street. *Walking Broadway* offers readers an architectural tour of the entire length of Broadway from Bowling Green to the Harlem River. This is a book about what can be seen and experienced on Broadway today. Buildings are chosen for discussion first and foremost because they are interesting to look at. In a relaxed and engaging style, the author presents the building's story, explores the reasons why it is there, and explains why it looks the way it does. Along the way, the reader not only has the chance to discover fascinating and unusual buildings, but also gains a comprehensive understanding of the historic, social, economic, and political forces which shaped Broadway's growth and character.

Walking L.A.

Exploring Boston's past and present: 12 walks that trace the creation of the city's man-made land in the central waterfront, Back Bay, South End, Charlestown, and elsewhere. At its founding, Boston was a small peninsula; over the last 375 years the city has doubled in size by filling in the surrounding tidal flats--areas covered with water at high tide and exposed at low. In *Walking Tours of Boston's Made Land*, historian Nancy Seasholes outlines twelve walks that trace where and why Boston's man-made land was created, and, along the way, uncovers fascinating and little-known pieces of Boston history. In the course of these walks--around the central waterfront, Back Bay, Beacon Hill, the South End, Charlestown, and elsewhere--she shows us how Boston's past is always just below the surface of its present. Each walk is accompanied by a map that shows the route and original shoreline. The walks are illustrated with historical maps, historical photographs and views, and current photographs. All walks are accessible by public transportation.

Beat Generation in New York

A guided tour of the physical Internet, as seen on, above, and below the city's streets What does the Internet look like? It's the single most essential aspect of modern life, and yet, for many of us, the Internet looks like an open browser, or the black mirrors of our phones and computers. But in *Networks of New York*, Ingrid Burrington lifts our eyes from our screens to the streets, showing us that the Internet is everywhere around us, all the time—we just have to know where to look. Using New York as her point of reference and more than fifty color illustrations as her map, Burrington takes us on a tour of the urban network: She decodes spray-painted sidewalk markings, reveals the history behind cryptic manhole covers, shuffles us past subway cameras and giant carrier hotels, and peppers our journey with background stories about the NYPD's surveillance apparatus, twentieth-century telecommunication monopolies, high frequency trading on Wall Street, and the downtown building that houses the offices of both Google and the FBI's Joint Terrorism Task Force. From a rising star in the field of tech journalism, *Networks of New York* is a smart, funny, and beautifully designed guide to the endlessly fascinating networks of urban Internet infrastructure. The Internet, Burrington shows us, is hiding in plain sight.

Walking New Orleans

From the docks of Portsmouth, where merchants engaged in the trans-Atlantic slave trade unloaded their cargo, to the northern border with Canada, where many escaping captives found their first moment of freedom, the Granite State holds a multitude of stories that mark the milestones of its complex history. For more than 300 years, the lives of African people and their descendants have been a part of New Hampshire's history. African-American history has long been hidden in the shadows even though Black lives have been intermixing with White lives in highly personal ways. The Black Heritage Trail of New Hampshire works to open hearts and minds to a deeper understanding of who we are as a collective and to recognize that we share a uniquely American heritage. Building on our success with the Portsmouth Black Heritage Trail that started more than two decades ago, the new Black Heritage Trail of New Hampshire will connect the stories of New Hampshire's African heritage by documenting and making visible historic sites that testify to this rich history. Guided tours and public programs, along with educational materials and teacher workshops, will continue to be developed by the Black Heritage Trail to promote awareness of African-American culture and to honor all the people of African descent whose names may not have been included in previous town histories. As we celebrate a people's history of resilience, versatility and courage, we invite everyone to explore for themselves what our shared history means and bring that understanding into the present.

A Walking Tour in Southern France

Everyone wants to visit New York at least once. The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs. The only problem is figuring out where to start—and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture, and, as *The Tour Guide* reveals, the tours they offer are as fascinatingly diverse—and eccentric—as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth-century Irish gangs of Five Points, the culinary traditions of Queens, the culture of Harlem, or even the surveillance cameras of Chelsea—in short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects, we learn, as Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour-giving across the globe as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart.

Shire Town by Foot

Too often, tours of New York City are paeans to power--extolling the fabled New York skyline and the robber barons whose wealth built it up, praising the marvels of a city built largely on finance. But New York has also, since its founding, been a city of struggle, a place where workers lived, created wealth, and spun out the rich cultural tapestry that has put the small island of Manhattan at the very center of the world's imagination. It is a city of proletarian uprising, of abolitionist rebellion, of civil rights demonstrations, and radical futures. This is Bruce Kayton's New York, the town of Emma Goldman and Langston Hughes, of Margaret Sanger and John Reed, of demonstrations and shootouts, of community gardens and marches. Now in an expanded third edition with a new Upper West Side tour featuring the Berrigans, Maxim Gorky, Lucien Carr and others, and updated sites reflecting recent anti-war and police-brutality protests, Occupy Wall Street and Zuccotti Park, and more, these thirteen walking tours, taking us from Battery Park to Harlem, from the Lower East Side to Central Park, offer a vital new perspective on the history of New York City and its place in the traditions of American radicalism. From the Trade Paperback edition.
