LSD, My Problem Child

There must have been millions of guys like me. I was crazy about a girl at my school, I had my differences with my father and, to be honest, my studies weren't exactly my top priority. Kind of typical, as adolescents go. But something incredible showed me I was wrong, that I was actually special in a way I couldn't explain

except that I knew it had all begun the night I met twin girls who would change my life for ever . . . the night I was standing naked in a museum with people all around me. Even though it sounds like I'm making all this up, it all began with a dream . . .

Get out of my dreams

This concise book provides an accessible overview of the history of the telenovela in Latin America within a pan-Latino context, including the way the genre crosses borders between Latin America and the United States. Telenovelas, a distinct variety of soap operas originating in Latin America, take up key issues of race, class, sexual identity and violence, interweaving stories with melodramatic romance and quests for identity. June Carolyn Erlick examines the social implications of telenovela themes in the context of the evolution of television as an integral part of the modernization of Latin American countries.

Television has been the subject of research in politics, culture, education, and economy, but very little has been said so far about its potential for creating new forms of art. Is television capable at all of creating serious art, or is it just a means of amusement and communication? This collection of articles discusses the aesthetic aspect of television, maintaining the claim that television bears its own unique artistic potentials. Examinations of various aspects and features of television in comparison to other forms of art, as well as analyses of specific television programs consolidate this claim. This book includes an introduction by the editor, Ruth Lorand, and articles by scholars from universities situated in different cultural and political settings: Germina Nagat, Alexander Nehamas, David Goldblatt, Eddy Zemach, Kathleen Marie Higgins, Andrew Ballantyne, Eran Guter, Rob van Gerwen, Katya Mandoki, Sally Banes, and Charles Leech.

#1 New York Times bestselling author Johanna Lindsey delivers “first rate romance” (Daily News) in this sparkling, passionate tale of an earl’s daughter who must convince a mysterious viscount to marry her and end his vendetta against her brother. One duel could be considered a matter of honor, but three duels are attempted murder! With enlightened society outraged at such reckless behavior among young noblemen, the Prince Regent orders Robert Whitworth, the earl of Tamdon’s heir, and Lord Dominic Wolfe to end their dispute by allying their families through marriage. Whichever party refuses to comply will forfeit his lands and title. Whitworth relishes the idea of sending his younger sister Brooke to his enemy’s remote estate. He knows the Wolf will reject her as a bride, thereby losing his wealth and status. The Wolf, however, is determined to scare

away the Whitworth chit. With dueling no longer an available means of destroying the man he abhors, he will be satisfied to see him lose his lands and title. But he hadn't expected his enemy's sister to be so resourceful or resilient. Brooke Whitworth has been dreaming of her first season in London because she intends to win a husband who will take her far away from her unloving family. Instead, she is being sent to the Yorkshire moors to wed a mysterious nobleman whose family is cursed and who has thrice tried to kill her brother. The Handmaid's Tale

It is a cup of coffee that changes Robert Wallis's life — and a very bad cup of coffee at that. The impoverished poet is sitting in a London coffeehouse contemplating an uncertain future when he meets Samuel Pinker. The coffee merchant offers Wallis a job employing his palate and talent for words to compose a “vocabulary of coffee” based on its many subtle and elusive flavours. As Willis finds himself falling hopelessly in love with his coworker, Pinker's spirited daughter Emily. Their love is tested when Wallis is dispatched on a journey to North Africa in search of the legendary Arab mocca. As he travels to coffee's fabled birthplace — and learns the fiercely guarded secrets of the trade — Wallis meets Fikre, the defiant, seductive slave of a powerful coffee merchant, who serves him in the traditional Abyssinian coffee ceremony. And when Fikre dares to

slip Wallis a single coffee bean, the mysteries of coffee and forbidden passion intermingle...and combine to change history and fate.

The quantity and composition of aroma and flavour compounds in foods and food products exert a marked influence on the consumer acceptance and, consequently, on the commercial value of the products. It has been established many times that one of the main properties employed for the evaluation of the product quality is the flavour, that is, an adequate flavour composition considerably enhances the marketability. Traditional analytical methods are generally unsuitable for the accurate determination of the quantity of this class of compounds. Moreover, they do not contain any useful information on the concentration of the individual substances and they are not suitable for their identification. As the stability of the aroma compounds and fragrances against hydrolysis, oxidation and other environmental and technological conditions shows marked differences, the exact determination of the flavour composition of a food or food product may help

for the prediction of the shelf-life of products and the assessment of the influence of technological steps on the aroma compounds resulting in more consumer-friendly processing methods. Furthermore, the qualitative determination and identification of these substances may contribute to the establishment of the provenance of the product facilitating the authenticity test. Because of the considerable commercial importance of flavour composition, much effort has been devoted to the development of methods suitable for the separation and quantitative determination of flavour compounds and fragrances in foods and in other industrial products.

This Bridge Called My Back

With the publication of her first novel, *The Heart is a Lonely Hunter*, Carson McCullers, all of twenty-three, became a literary sensation. With its profound sense of moral isolation and its compassionate glimpses into its characters' inner lives, the novel is considered McCullers' finest work, an enduring masterpiece first published by Houghton Mifflin in 1940. At its center is the deaf-mute John Singer, who becomes the confidant for various types of misfits in a Georgia mill town during the 1930s. Each one yearns for escape from small town life. When Singer's mute companion goes insane, Singer moves into the Kelly house, where Mick Kelly, the book's heroine (and loosely based on McCullers), finds solace in her music. Wonderfully attuned to the spiritual isolation that underlies the human condition, and with a deft sense for racial tensions in the South, McCullers spins a

haunting, unforgettable story that gives voice to the rejected, the forgotten, and the mistreated—and, through Mick Kelly, gives voice to the quiet, intensely personal search for beauty. Richard Wright praised Carson McCullers for her ability "to rise above the pressures of her environment and embrace white and black humanity in one sweep of apprehension and tenderness." She writes "with a sweep and certainty that are overwhelming," said the New York Times. McCullers became an overnight literary sensation, but her novel has endured, just as timely and powerful today as when it was first published. *The Heart is a Lonely Hunter* is Carson McCullers at her most compassionate, endearing best.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the

mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

STARBUCKED will be the first book to explore the incredible rise of the Starbucks Corporation and the caffeine-crazy culture that fueled its success. Part Fast Food Nation, part Bobos in Paradise, STARBUCKED combines investigative heft with witty cultural observation in telling the story of how the coffeehouse movement changed our everyday lives, from our evolving neighborhoods and workplaces to the ways we shop, socialize, and self-medicate. In STARBUCKED, Taylor Clark provides an objective, meticulously reported look at the volatile issues like gentrification and fair trade that distress activists and coffee zealots alike. Through a cast of characters that includes coffee-wild hippies, business sharks,

slackers, Hollywood trendsetters and more, STARBUCKED explores how America transformed into a nation of coffee gourmets in only a few years, how Starbucks manipulates psyches and social habits to snare loyal customers, and why many of the things we think we know about the coffee commodity chain are false.

Tattoos on the Heart

Very often, efforts to improve value chains miss out half of the population -- the female half. It is men who sell the products and who keep the money from those sales. The women, who do much of the work but are not recognised for it, often have to work even harder to meet ever-increasing quality requirements. But they see few of the benefits. How to change this? This book explains how development organisations and private entrepreneurs have found ways to improve the position of women in value chains especially small-scale women farmers and primary processors. It outlines five broad strategies for doing this: (1) working with women on typical "women's products" such as shea, poultry and dairy, (2) opening up opportunities for women to work on what are traditionally "mens commodities" or in mens domains, (3) supporting women and men in organising for change by building capacity, organisation, sensitisation and access to finance, (4) using standards and certification to promote gender equity, and (5) promoting gender-responsible business. The book draws on dozens of cases from all over the world, covering a wide range of crops and livestock

products. These include traditional subsistence products (such as rice), small-scale cash items (honey, vegetables) as well as export commodities (artichokes, coffee) and biofuels (jatropha). The book includes a range of tools and methodologies for analysing and developing value chains with gender in mind. By bringing together the two fields of gender and value chains, this book offers a set of compelling arguments for addressing gender in value chain development. It proposes an analytical framework that builds on both fields. It outlines five strategies for development organisations and enterprises to ensure that women can participate in value chains as full partners and decision-makers. The overall result is to improve value chain performance, with both women and men able to enjoy the benefits.
