Bob Ross

Dust jacket notes: "Vibrant, fresh, immediate! The direct oil painting technique is an intense reaction to nature, a race with time to capture the color, the light and shadow, the design and the spirit of a subject in a few short hours. And now, Emile Gruppe - master of the direct oil painting technique - shows how you can use the broad strokes and lively colors of this spontaneous approach to infuse your own paintings with vitality, vigor, and on-the-spot freshness. A firm believer in using the best materials for the best results, Gruppe begins with a quick review of his favorite brushes, colors, easels, and painting surfaces. Next, he covers the basics of good design, what to look for and how to orchestrate what you see: masses, lines, values, and relationships. Turning to color, a fundamental element of his painting technique, Gruppe discusses complements, color harmony, color vibration, local color, reflected color, and using color to create atmospheric perspective. He explains how color appears on various kinds of days - foggy, clear, cloudy - and under different lighting conditions - front lighting, backlighting, sidelighting. In subsequent chapters, the author focuses on composing seascapes and landscapes; he

explains how to paint rocks, ocean, lighthouses, boats, piers, pilings, roads, trees, streams, snow, mountains, valleys. Then, in full-color step-by-step demonstrations, the author shows how he captures a subject in his unique, exuberant, on-the-spot style.

Copperplate Script - A Yin & Yang Approach by Paul Antonio, is an innovative, new technology applied to an historical script. The script presented in this manual is not an historical hand, but a geometric construct to aid in a more exacting understanding of the script. This construct assists with writing a cleaner and more beautiful copperplate script. The Technology reintroduces a comprehensive terminology for the parts of the letters - words used by the English Writing Masters in their Copybooks, in the 16th, 17th and 18th centuries, as well as additional names augmented from the historical record. Geometry and physics are used to explain how a curve works and where it sits in relation to the baseline. This concept, then compares how a car or a bicycle tackles a roundabout. Learning the skeletal forms, similar to learning Roman Capitals, is a key part of the manual. The process begins with using a pencil first, followed by the nib. The over-arching concept of the technology utilises 4Fold Symmetry. There are four facets in the 4Fold Symmetry, all of which have 2 aspects; simple and complex. Angular Confinement is the first facet. It shows how confining the curves, inside a plane sided figure (in this case a parallelogram), is like drawing a square to plot a circle. Additional pages of study include an extensive list of difficult-to-write practise words, exemplars of numbers and variations, ligatures of double letters and ampersands. Sections on Brush Copperplate, Flourishing and its rules, as well as a glossary, augment this fine body of work. This manual offers an extensive, in-depth study of Copperplate Script suitable for any level of ability and an extraordinary resource for the beginner, intermediate or advanced calligrapher.

Landscape Painting

Painting for the Absolute and Utter Beginner

The beauty of a watercolor painting lies in its diaphanous layers, delicate strokes, and luminous washes. However, the very features that define the beauty of the medium can make it difficult to master. This complete guide to understanding the relationships between color, value, wetness, and composition unravels the mysteries of watercolor to help your practice evolve. Experienced teacher and acclaimed artist Tom Hoffmann offers a unique, inquiry-based approach that shows you how to translate any subject into the language of watercolor. With Hoffmann as your guide, you'll learn the key questions to ask yourself at every turn and time-tested methods to help you reach solutions. Hoffmann's thorough explanations and step-by-step demonstrations delineate the process of composing a painting in watercolor, while art from more than thirty-five past and present masters, including John Singer Sargent, Ogden Pleissner, George Post, Emil Kosa, Jr., Mary Whyte, Trevor Chamberlain, Lars Lerin, Torgeir Schjølberg, Piet Lap, Leslie Frontz, and Alvaro Castagnet serve to illustrate and inspire. Whether you're a serious beginner or a seasoned practitioner, this book will guide you toward the all-important balance between restraint and risk-taking that every watercolorist seeks. The Acrylic Painter

Create art that's more attractive, interesting and eye-catching! Even if your perspective is accurate, your subject realistic and colors vibrant, a weak composition - predictable, repetitious or monotonous - means a weak painting. The Simple Secret to Better Painting ensures that your compositions work every time. It's an insightful artistic philosophy that boils down the many technical principles of composition into a single master rule that's easy to remember and apply: Never make any two intervals the same. You can make every painting more interesting, dynamic and technically sound by varying intervals of distance, length and space, as well as intervals of value and color. The rule also applies to balance, shape and the location of your painting's focal point. Greg Albert illustrates these lessons with eye-opening examples from both beginning and professional artists, including Frank Webb, Tony Couch, Kevin Macpherson, Charles Reid, Tony Van Hasselt and more. You'll discover that the ONE RULE is the only rule of composition you need to immediately improve your work - the moment your brush touches the canvas.

Daily Painting

Adolf Hitler's obsession with art not only fueled his vision of a purified Nazi state--it was the core of his fascist ideology. Its aftermath lives on to this day. Nazism ascended by brute force and by cultural tyranny. Weimar Germany was a society in turmoil, and Hitler's rise was achieved not only by harnessing the military but also by restricting artistic expression. Hitler, an artist himself, promised the dejected citizens of postwar Germany a purified Reich, purged of "degenerate" influences. When Hitler came to power in 1933, he removed so-called "degenerate" art from German society and promoted artists whom he considered the embodiment of the "Aryan ideal." Artists who had produced challenging and provocative work fled the country. Curators and art dealers organized their stock. Thousands of great artworks disappeared--and only a fraction of them were rediscovered after World War II. In 2013, the German government confiscated roughly 1,300 works by Henri Matisse, George Grosz, Claude Monet, and other masters from the apartment of Cornelius Gurlitt, the reclusive son of one of Hitler's primary art dealers. For two years, the government kept the discovery a secret. In Hitler's Last Hostages, Mary M. Lane reveals the fate of those works and tells the definitive story of art in the Third Reich and Germany's ongoing struggle to right the wrongs of the past.

Everyday Watercolor

Because nature is so expansive and complex, so varied in its range of light, landscape painters often have to look further

and more deeply to find form and structure, value patterns, and an organized arrangement of shapes. In Landscape Painting, Mitchell Albala shares his concepts and practices for translating nature's grandeur, complexity, and color dynamics into convincing representations of space and light. Concise, practical, and inspirational, Landscape Painting focuses on the greatest challenges for the landscape artist, such as:

- Simplification and Massing: Learn to reduce nature's complexity by looking beneath the surface of a subject to discover the form's basic masses and shapes.
- Color and Light: Explore color theory as it specifically applies to the landscape, and learn the various strategies painters use to capture the illusion of natural light.
- Selection and Composition: Learn to select wisely from nature's vast panorama. Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities.

The lessons in Landscape Painting—based on observation rather than imitation and applicable to both plein air and studio practice—are accompanied by painting examples, demonstrations, photographs, and diagrams. Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable, Sanford Gifford, and Claude Monet. Based on Albala's 25 years of experience and the proven methods taught at his successful plein air workshops, this in-depth guide to all aspects of landscape painting is a must-have for anyone getting started in the genre, as well as more experienced practitioners who want to hone their skills or learn new perspectives.
