Alexander's Care of the Patient in Surgery

The previous editions of this popular best seller have made diagnosis and treatment easier and more efficient for thousands of practitioners. The Seventh Edition reflects the current standard of practice, and the consensus of over 330 experienced clinical experts. Like its predecessors, the new 5 Minute Clinical Consult covers over 1,000 topics, arranged alphabetically and presented in the famous, fast-access two-page outline format including basics, diagnosis, treatment, medications, follow-up, and more. Approximately 60% of the articles are revised to give readers up-to-date information. The medication index is expanded, and readers will also find listings of current Web sites for some of the diseases and conditions.

Alexander's Care of the Patient in Surgery

Alexander's Care of the Patient in Surgery is the most dependable source for comprehensive perioperative information. Well-known author and educator, Jane C. Rothrock, continues to provide step-by-step instructions for over 400 surgical procedures, including many minimally invasive methods, all backed by the latest research. More than 1,000 full-color illustrations and photos depict current techniques, as well as surgical anatomy and instrumentation. This edition adds cutting-edge information to reflect new concepts for both invasive and non-invasive surgical procedures, whether the location is in a hospital, outpatient clinic, or doctor's office.

how to make a diagnosis, what other tests to order, how to decide on treatment, and what the warning signs are for referral to a specialist. Each chapter is based on a symptom and has algorithms for quick reference, as well as explanations on each step of the algorithm. The treatment is also outlined in an algorithmic fashion as well as detailed in the text. The book is eminently suitable for primary care physicians and emergency room or urgent care personnel, resident physicians in primary care fields, medical students and admirably serves those studying for the Boards, as well as allied health professionals, including ENT nurses and audiologists.
