In November 1991 the American flag was lowered for the last time at Clark Air Base in the Philippines. This act brought to an end American military presence in the Philippines that extended back over 90 years. It

also represented the final act in a drama that began with the initial rumblings in April of that year of the Mount Pinatubo volcano, located about 9 miles to the east of Clark. The following pages tell the remarkable story of the men and women of the Clark community and their ordeal in planning for and carrying out their evacuation from Clark in the face of impending volcanic activity. It documents the actions of those who remained on the base during a series of eruptions, and the packing out of the base during subsequent months. This is the story of the "Ash Warriors," those Air Force men and women who carried out their mission in the face of an incredible series of natural disasters, including volcanic eruption, flood, typhoons, and earthquakes, all of which plagued Clark and the surrounding areas during June and July 1991. The author of "The Ash Warriors" knew the situation first hand. Colonel Dick Anderegg was the vice commander of the 3rd Tactical Fighter Wing when the volcano erupted, and he was at Clark throughout the evacuation and standing down of the base. He brought his own personal experience to bear in writing this story. He also conducted extensive research in the archives of the Pacific Air Forces and Thirteenth Air Force, utilized scores of interviews of those who witnessed and participated in the events, and visited Clark in 1998 to see in person how the installation had changed in the 8 years since the Americans left. This story is one of courage, resourcefulness, and dedication to duty on the part of Air Force men and women called upon to respond to one of the great natural disasters of the 20th Century. As the following pages reveal, the Ash Warriors were up to the challenge in every respect.

Immer wieder steht das Sonett als die markanteste Form der traditionellen Poetik im Mittelpunkt programmatischer wie praktischer Auseinandersetzungen in der amerikanischen Dichtung des vergangenen Jahrhunderts. Als Relikt überkommener wie überholter Zeilenanordnungsverfahren von verschiedensten Vertretern der avantgardistischen Moderne attackiert, wird das Sonett in den Nachkriegsphasen der Postmoderne allerdings selbst zum Experimentierfeld innovativer Lyriker. Die vielfältigen Linien dieser Entwicklung werden anhand eines repräsentativen Querschnitts durch die Sonettwerke grosser wie unbekannter amerikanischer Dichterinnen und Dichter

- von Reese und Millay bis Rukeyser und Mayer, und von Frost und Pound bis Merrill und Updike - nachgezeichnet. Diese Darstellung bietet somit einen panoramatischen Überblick über die Formen und die Funktionen des amerikanischen Sonetts in den letzten einhundert Jahren.

In today's world of business where organizational boundaries are blurry, intense competition dictates rapid change, and complex issues and relationships cut across departments, business units, and even companies, the old hierarchical command-and-control management approach is no longer sufficient. Distributed leadership approaches are necessary and no one individual can do it all. In fact, an enterprise is more than just the traditional organization. Value today is often created not just within a company, but also across a network of companies. Being able to connect the various components and to work collaboratively within the network is essential to maintaining competitive advantage. Leaders today must be capable of identifying potential partners, initiating and maintaining relationships, resolving conflicts, and reconfiguring their relationships. Cross-Enterprise Leadership is a new model for success in today's world of complexity and ambiguity. Leaders who adopt this approach will be more comfortable dealing with ambiguity, uncertainty, complexity and time pressures, and with creating value through networks of relationships. Small, domestic, entrepreneurial companies are, by their very nature, cross-enterprise focused. Entrepreneurs will tell you that they live in a world of uncertainty and ambiguity and that they constantly need to adjust on the fly. Equally, large multi-national companies like Wal-Mart, Nestle, or Coca-Cola are inherently complex and issues and relationships cut across functions, levels,

geographies, and companies. Cross-Enterprise Leadership goes beyond a functional perspective to understanding the complexity of business issues from all angles and how they can be integrated, how leaders can rely almost entirely on influence when they may be operating without power or authority, and how they can develop the capacity to make decisions and implement them in an environment filled with uncertainty and complexity. Most managers operate like the traditional orchestra-waiting to do their written part. But there is no tidy score for business today. CEL enables today's leaders to be more like a jazz band, improvising and building off of one another, creating music in real time and in relationship to one another.

"[Seize the high ground is a] narrative history of the Army's aerospace experience from the 1950s to the present. The focus is on ballistic missile defense, from

the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

Coastal Hazards Related to Storm Surge

This volume weaves together the Scottish otter stories from Gavin Maxwell's three non-fiction books, *Ring of Bright Water* (1960), *The Rocks Remain* (1963), and *Raven Meet Thy Brother* (1969). Maxwell was both an extraordinarily evocative writer and a highly unusual man. While touring the Iraqi marshes, he was captivated by an otter and became a devoted advocate of and spokesman for the species. He moved to a remote house in the Scottish highlands, co-habiting there with three otters and living an idyllic and isolated life - at least for a while. Fate, fame, and fire conspired against this paradise, and it, too, came to an end, though the journey was filled with incident and wonder. Maxwell was also talented as an artist, and his sinuous line drawings of these amphibious and engaging creatures, and the homes they occupied, illustrate his story. This book stands as a lasting tribute to a man, his work, and his passion. It was received and has endured as a classic for its portrait not only of otters but also of a man who endured heartaches and disappointments, whose life embodied both greatness and tragedy. He writes with

rare eloquence about his birth, his devotion to the beloved Scottish highlands, and the wildlife he loved, while refusing to ignore the darker aspects of his nature and of nature in its larger sense.

The Ash Warriors

Africans participated in all the Spanish explorations and settlements in Florida, as they did throughout the Spanish Americas. In Florida they helped establish St. Augustine and the free black community of Gracia Real de Santa Teresa de Mose. Africans and African Americans fought in the many conflicts that wracked Florida, including the three Seminole Wars and the Civil War. Despite the oppressions of slavery and segregation, black Floridians struggled to establish their own communities, combat racism and economic deprivation, and negotiate the terms of their labor. Against overwhelming odds, they helped develop communities like Jacksonville, Tampa, and Miami, and they served as the critical labor force for the state's citrus, agricultural, and timber industries. For centuries, however, their heritage has been ignored. These twelve essays examine the rich and substantial African American heritage of Florida, documenting African American contributions to the state's history from the colonial era to the late twentieth century.
