Following a prolonged near-death experience at age 17, Greer explains that he experienced cosmic consciousness and found the Rosetta Stone of ET contact -- the power of the unbounded mind within each of us -- that is responsible for much of the work being done by the CSETI (Center for the Study of Extraterrestrial Intelligence) project.

### **If the Universe Is Teeming with Aliens WHERE IS EVERYBODY?**

In the twenty-first century, the debate about life on other worlds is quickly changing from the realm of speculation to the domain of hard science. Within a few years, as a consequence of the rapid discovery by astronomers of planets around other stars, astronomers very likely will have discovered clear evidence of life beyond the Earth. Such a discovery of extraterrestrial life will change everything. Knowing the answer as to whether humanity has company in the universe will trigger one of the greatest intellectual revolutions in history, not the least of which will be a challenge for at least some terrestrial religions. Which religions will handle the discovery of extraterrestrial life with ease and which will struggle to assimilate this new knowledge about our place in the universe? Some religions as currently practiced appear to only be viable on Earth. Other religions could be practiced on distant worlds but nevertheless identify both Earth as a place and humankind as a species of singular spiritual religious importance, while some religions could be practiced equally well anywhere in the universe by any sentient beings. Weintraub

guides readers on an invigorating tour of the world's most widely practiced religions. It reveals what, if anything, each religion has to say about the possibility that extraterrestrial life exists and how, or if, a particular religion would work on other planets in distant parts of the universe.

Secret societies, famous scientists, ancient Egyptian mysticism, and a fascinating addition to the god-versus-science debate: the Catholic Church. By the bestselling authors of *The Templar Revelation* and *Mary Magdalene*, *The Forbidden Universe* reveals how the foundations of modern science were based around a desire to destroy the church. The great pioneering scientists of the Renaissance and the early Enlightenment (including Copernicus, Galileo, and Sir Isaac Newton) were fervent devotees of the philosophical/mystical system of Hermeticism. Many of the most important scientists of this age, including Galileo, belonged to a secret society called the Giordanisti, which had the agenda to overthrow the Church and establish a new age of Hermetic supremacy.

This is what we all learned in school: Pilgrims on the Mayflower landed at Plymouth Rock in 1620. They had a rough start, but ultimately made a go of it, made friends with the Indians, and celebrated with a big Thanksgiving dinner. Other uptight religious Puritans followed them and the whole place became New England. There were some Dutch down in New York, and sooner or later William Penn and the Quakers came to build the City of Brotherly Love in Pennsylvania, and finally it was 1776 and time to revolt against King George III and become America. That's it. That's the narrative of American colonial history known to one and all. Yet there are 150 years - six or seven generations between Plymouth Plantation and the 1770s - that are virtually unknown in our national consciousness and unaccounted for in our American narrative. Who, what, when, where and why people were motivated to make a two-month crossing on the North Atlantic to carve a life in a largely uncharted, inhospitable wilderness? How and why did they build the varied societies that they did here in the New World colonies? How and why did we become America? America's Forgotten Colonial History tells that story.

Investigates and questions the scientific consensus on the origins of civilization Do we, the human species, really know who we are or where we came from or how we originated or our place in the cosmos? Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line? Exploring alternative theories on the establishment of society and civilization, Hidden History: Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting, suppressed, and forbidden accounts of history and the origins of humanity. It takes a broad and inclusive survey of historical documents, various theories, and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting-edge science with metaphysical, spiritual, and even paranormal views, daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus. Hidden History looks at the multiverse and parallel dimensions, the ancient alien theory, metaphysics, and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world-wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. the hidden path of the religions banned by the orthodox Church--from the time before Christ when the foundations of Christianity were being laid to the tumultuous times of the Cathars and Templars and the Masons of the New World. Revealed in this investigation of the roots of Western faith are the intimate ties of ancient Egyptian religion to Christianity, the true identities of the three magi, the link forged by the Templars between early Christianity and the Masons, and how these hidden religious currents still influence the modern world. This book serves as a compelling introduction to the true history of the heretical religious traditions that played as vital a role in society as the established faiths that continuously tried to suppress them. Born in the same religious ferment that gave birth to Christianity, these spiritual paths survived in the "heresies" of the Middle Ages, and in the theories of the great Renaissance thinkers and their successors, such as Isaac Newton and Giordano Bruno. Brought to the New World by the Masons who inspired the American Revolution, the influence of these forbidden religions can be still found today in "The Star Spangled Banner" and in such Masonic symbols as the pyramid on the back of the dollar bill.

of constructing a scientific / military base on the Moon. On June 8, 1959, a group at the Army Ballistic Missile Agency (ABMA) produced for the U.S. Department of the Army a report entitled Project Horizon, A U.S. Army Study for the Establishment of a Lunar Military Outpost. The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Wernher von Braun, head of ABMA, appointed Heinz-Hermann Koelle to head the project team at Redstone Arsenal. Their plans called for 147 early Saturn A-class rocket launches to loft spacecraft components for assembly in low Earth orbit at a spent-tank space station. A lunar landing-and-return vehicle would have shuttled up to 16 astronauts at a time to the base and back. While officially Project Horizon was scrapped by the military, or was it? Bara looks into the secret space program, the possibility of secret bases on the Moon and many rumors surrounding the military's secret projects in space. The book will ask and answer many questions. Was Wernher von Braun involved in the Roswell crash investigation? Why did he suddenly become fascinated with highly advanced theoretical physics propulsion systems during the Apollo years, and why did all of this public research suddenly "go black" in the early 1960s? Did NASA and the Pentagon know and expect to find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the TV cameras in order to hide their explorations of one of these bases? What was the top secret "Chapel Bell" experiment on Apollo 16? Has teleportation been developed from captured alien technology and used to transport humans to secret NASA/DOD bases on Mars? Do

And with good reason, too. There are countless conspiracy theories in circulation that suggest the world as we see it is not as it really is. Disinformation campaigns try to tell us that up is down and right is wrong. More and more people are beginning to realize that we are being manipulated and lied to. We are denied access to secrets that shouldn't be secrets. Our politicians obfuscate, deny, and outright lie. No one knows whom to trust. The nightly news is being replaced by carefully orchestrated propaganda. Our iPhones are monitored as are our laptops and our landlines. As for social media, that too is ripe for spying by men in black suits. No wonder, then, that the last few years have seen an incredible rise in conspiracy theories about deceptions and cover-ups.

In Revelations, the final volume of the Alien Contact Trilogy, Dr. Jacques Vallee presents startling evidence that well-constructed hoaxes and media manipulations have misled UFO researchers, diverting them from the UFO phenomenon itself. Vallee takes readers step by step into the tangled web of UFOlogy's dark side, in an effort to clear the ever-thickening underbrush that has obscured the real nature of the UFO phenomenon. Jacques Vallee was born in France, where he received a Bachelor of Science degree in mathematics from the Sorbonne and a Master of Science in astrophysics from the University of Lille. He began his professional life as an astronomer at the Paris Observatory in 1961. While on the staff of the French Space Committee, he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth, initiating a lifelong interest in the UFO phenomenon. Vallee arrived in the U.S. in 1962, worked in astronomy at the University of Texas at Austin, and wrote two highly respected scientific examinations arguing for the Extraterrestrial Hypothesis (ETH) of UFO origins. In 1967, he received a Ph.D. in computer science from Northwestern University, where he became a close associate of J. Allen Hynek, then scientific consultant for the U.S. Air Force on

Shares new documents to expose the sinister alien influence in world governments, financial systems, and scientific institutions throughout history • Shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens authority to abduct humans for "research" • Reveals how Reptilian-influenced ex-Nazis infiltrated the U.S. government • Explains how the Reptilians have created alien-human hybrids under their control to replace the human population Long ago, the Galactic Federation sent the Atlans, a fierce group of humans from the Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians. The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions. Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who control the levers of financial, technological, and military power throughout the world through various secret societies. He shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens permission to take humans up to their spaceships, ostensibly for genetic study--in return for alien technology--and how these abductions led to the creation of a hybrid race under Reptilian mind control. He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi-Reptilian presence. Contrasting the Reptilians with the benevolent Ebens, the aliens from Zeta Reticuli who crashed at Roswell, Kasten exposes the stealthy tactics of the Reptilians, their relationship with the Greys, and their advanced genetic bio-technology and teleportation abilities--as well as what we need to do to defeat their plans.

From the squat “gods” of Mexico and Peru to the fairy kingdom of Europe to the blond pygmies of Madagascar, on every continent of the world they are remembered as masters of stone carving, agriculture, navigation, writing, and shamanic healing--and as a “hobbit” people, no taller than 31/2 feet in height yet perfectly proportioned. Linking the high civilizations of the Pleistocene to the Golden Age of the Great Little People, Susan Martinez reveals how this lost race was forced from their original home on the continent of Pan (known in myth as Mu or Lemuria) during the Great Flood of global legend. Following the mother language of Pan, Martinez uncovers the original unity of humankind in the common roots of key words and holy symbols, including the scarlet biretta of Catholic cardinals, and shows how the Small Sacred Workers influenced the primitive tribes that they encountered in the post-flood diaspora, leading to the rise of civilization. Examining the North American mound-culture sites, including the diminutive adult remains found there, she explains that these stately mounds were not burial sites but the sanctuaries and homes of the Little People. But one of the four, Enrico Fermi, asked, "If these civilizations do exist, where is everybody?" Given the fact that there are perhaps 400 million stars in our Galaxy alone, and perhaps 400 million galaxies in the Universe, it stands to reason that somewhere out there, in the 14 billion-year-old cosmos, there is or once was a civilization at least as advanced as our own. Yet many intelligent, open-minded readers harbor secret interests: in the Great Pyramid and how it was built, in mythic tales of sky gods coming and going, from Ezekiel to the Rig-Veda. They are awed by the intricate fractals in crop circles, and they more than take notice when a NASA astronaut says he was trailed in space by

Evidence suggests that these outsiders shaped our religions, genes, technology, and cultures. In fact, they may have provided the impetus for modern civilization. He reviews sacred texts, myths and legends--from the Old Testament, Hebrew texts, and the Vedas, to the Greek myths, Sumerian tablets, and other historical sources to make the link between religions, their gods, and alien intervention. intrusive medical experiments. Yet, before the 1950s, the Greys were nowhere in sight. The Alien Book: A Guide to Extraterrestrial Beings on Earth shows that extraterrestrial life comes in all kinds, appearances, sizes, and bodies. They all have one thing in common, however: the human race has encountered them, and we continue to do so today. Not just dozens, or even hundreds, but thousands of eyewitness experiences have been reported. Covering hundreds of extraterrestrial life forms in more than 40 thematic chapters, this absorbing look at the mysteries of aliens on earth includes the Space Brothers: long-haired, very human-looking ETs the fiendish Reptilians: seven-to-eight-foot-tall predatory shapeshifters Men in Black beings: extremely pale-skinned, tall, and with huge eyes Black-eyed Children: anemic-looking kids with solid black eyes that might be ET-human hybrids Bigfoot the werewolf-like Dogmen jellyfish-style aliens that soar around the skies of our world the Shadow People: dangerous humanoids that terrorize people legendary Nephilim space-vampires: insect-like aliens that resemble a giant praying mantis and many, many more! The Alien Book investigates the full range of sentient, alien life forms. Some are benign and others downright deadly. Some are small, like a germ or virus that has NASA, creating guidelines to deal with an outbreak of an extraterrestrial germ. Some are big like a giant praying mantis or the biblical Goliath. They all lurk on Earth and in this chilling book! With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Virtual Earth Graduate is unique. What if many things you think you know about Physics, Earth History and Religion are false? What if this is not our planet and we're not here alone? Are there hybrids here with us? Is Man being visited by 3D Extraterrestrial intelligences? Is someone on the Moon? What would have to be true about planet Earth for it to look the way it does? Who built all the monolithic walls, monuments and buildings that Man cannot even duplicate today? What are the chances that Earth is a Simulation as current Physics proposes? While not 100% conclusive, the evidence is tantalizing. In short Are you really living on the planet you think you are? These and more issues are examined in this book and will enlighten the reader - probably for the first time in years. If you have ever wondered about the Origin of Man, the nature of UFOs, the Apollo Moon Mission and the possibility of intelligence on Mars, Creation versus Evolution, and why nothing certain is known about Man's history backwards of AD 900, then this book is for you. The author has done over 50 years of research into these topics, closely examining Earth History, Quantum Physics, Genetics, and several Religions and more, and has discovered the fascinating answers to what Earth is, what Man

really is, why there are sociopaths, why the constants in Science are changing, and what we are doing here on Earth. He does not pretend to have all the answers but those he does have form a coherent and unexpected picture of Man and Earth, in effect connecting almost all the dots. The purpose of this book is to wake up to Man's true nature and divine potential, the real nature of Earth, Moon and Mars, who is here with us, and why we are here so that the new understanding will serve as enough Light to get souls out of here - as Earth Graduates. The book is not a religious book; it just provides a review of Man and his world as catalyst, examining false beliefs, disinformation, assumptions and attachments that bind souls to the planet and in the last few chapters, it provides suggestions for improving one's life, relationships, and above all - the Light (higher consciousness) to get out of here and move on to something more dynamic in the Multiverse we all inhabit. Man must start to think outside the box that was created for him by those who want to be Lords over the Sheep. This book serves to break that entrapment. At the very least, it is also "brain candy," something to contemplate -- take what you can accept and put the rest on the shelf. The book is not meant to be blindly believed, but it will provide hours of things to think about -- and the footnotes for research if you are so inclined. Be sure to read the back cover for other authors' endorsements and a list of what's inside. The Intro also says what is where in the book. The book just went through a major 70-page update (Chapter 4 and Appendix A) in September 2014 and now has the information on UFOs, Moon, and Mars that was kept out of the first published version.

## **America's Forgotten Colonial History**

An investigation into the discoveries of Lewis and Clark and other early explorers of America and the terrible acts committed to suppress them • Provides archaeological proof of giants, the fountain of youth, and descriptions from Lewis's journals of a tribe of "nearly white, blue-eyed" Indians • Uncovers evidence of explorers from Europe and Asia prior to Columbus and of ancient civilizations in North America and the Caribbean • Investigates the Smithsonian conspiracy to cover up Lewis and Clark's discoveries and what lead to Lewis's murder Meriwether Lewis discovered far more than the history books tell--ancient civilizations, strange monuments, "nearly white, blue-eyed" Indians, and evidence that the American continent was visited long before the first European settlers arrived. And he was murdered to keep it all secret. Examining the shadows and cracks between America's official version of history, Xaviant Haze and Paul Schrag propose that the America of old taught in schools is not the America that was discovered by Lewis and Clark and other early explorers. Investigating the discoveries of Spanish conquistadors and Olmec stories of contact with European-like natives, the authors uncover evidence of explorers from Europe and Asia prior to Columbus, sophisticated ancient civilizations in North America and the Caribbean, the fountain of youth, and a long-extinct race of giants. Verifying stories from Lewis's journals with modern archaeological finds, geological studies, 18th- and 19th-century newspapers, and accounts of the world in the days of Columbus, the authors reveal

how Lewis and Clark's finds infuriated powerful interests in Washington--including the Smithsonian Institution--culminating in the murder of Meriwether Lewis.

have become commonplace in our society. Topics range from scientific enigmas--such as the moon and the origins of the Great Pyramid and Sphinx--to religious contradictions on the life of Jesus, the nature of the soul, heaven and hell and the popular conundrums, such as the Bermuda Triangle, Stonehenge, etc., with a thorough review of notorious 9/11 event, revealing the true underlying menace. "In this EK title Roush investigates a topic that has fascinated him since college -- the possibility and probability of life, intelligent or otherwise, in the universe. The book covers the history and science of our search for extraterrestrial life, and investigates what that search means for us as a species, as well as what the implications of finding life on other planets might mean for life on Earth. The book covers various iterations of SETI, or the search for extraterrestrial intelligence, both in listening for messages from space as well as sending them. Roush also covers more recent efforts to find exoplanets, worlds similar enough to our own to possibly harbor life in even very basic forms. Some of this research is driven by

discoveries of 'extremophile' life here on Earth in places and conditions previously considered to be uncondusive to life forms. Roush co-taught a course on this topic last year at MIT"--

Reveals the cutting edge of New Science and shows how established science disallows inquiry that challenges the status quo--even when it produces verifiable results • Contains 43 essays by 19 researchers denoting cutting-edge, heretical, or suppressed scientific research, including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto • Edited by Atlantis Rising publisher, J. Douglas Kenyon Following the model of his bestselling Forbidden History and Forbidden Religion, J. Douglas Kenyon has assembled from his bimonthly journal, Atlantis Rising, material that explores science and technology that has been suppressed by the orthodox scientific community--from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky's astronomical insights, free energy from space, cold fusion, and Rupert Sheldrake's research into telepathy and ESP. There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical. For example, Masaru Emoto's research into the energetics of water, although supported by photographic evidence, has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their

thoughts. The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own projects, those that will not rock the establishment. From Tesla's discovery of alternating current to Robert Schoch's re-dating of the Sphinx, this book serves as a compelling introduction to the true history of alternative and New Science research.
