GO Math! offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 1 student edition is organized into individual chapter booklets and comes with a student resource book.

Go Math!

In *Innovate Inside the Box*, George Couros and Katie Novak provide informed insight on creating purposeful learning opportunities for all students. By combining the power of the Innovator's Mindset and Universal Design for Learning (UDL), they empower educators to create opportunities that will benefit every learner.

Go Math! Standards Practice Book Level 5

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, and biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Houghton Mifflin Harcourt Go Math Florida

"California GO Math! is specifically designed for California teachers and students to ensure success with California Common Core Standards and the Smarter Balanced Assessment. California GO Math! K-6 incorporates mathematical practices in every lesson so students develop the mathematical thinking they need. It features exploration-driven lessons that begin with problem-based situations and build to more abstract problems. It includes resources to personalize instruction for RtI, online assessment, and ongoing data to inform instruction for Intervention, ELD, and challenge."--Publisher's website.

Go Math! Enrich Book Grade 2

"The new Common Core Math Standards have been formulated to provide students with instruction that will help them acquire a thorough knowledge of math at their grade level, which will enable them to move on to higher mathematics with competence and confidence. Along with learning concepts and skills, students need instruction and activities that encourage them to collaborate with other students, utilize technology, communicate ideas about math both orally and in writing, and gain an appreciation of the significance of mathematics to modern life. Hands-on Activities for Teaching the Common Core Math Standards, Grades K-2 is designed to address these needs. This resource has several important goals. The activities in this book will help students: Gain understanding of math concepts and skills, based on the new Common Core Standards, apply their understanding of concepts and skills, develop proficiency in calculations, learn to think abstractly, think critically using mathematical reasoning, employ various problem-solving strategies, gain fluency in communicating about math, develop the foundation for success in higher mathematics"--

California Go Math!

A second grade mathematics curriculum based on the Common core standards (c. 2010) and designed for use in Florida schools.

Go Math!

That version of the 9-12 standards you wish you had If you're a high school teacher, no need to despair. Jim Burke has created a Common Core Companion for you, too. This time positioning the grades 9-10 standards alongside 11-12, it's every bit the roadmap to what each standard says, what each standard means, and how to put that standard into practice across subjects. Jim clearly lays out: - Key distinctions across grade levels - Different content-area versions of each standard - Explanations of each standard, with student prompts - Content to cover, lesson ideas, and instructional techniques - Glossary and adaptations for ELL students
