Seven Things That Make Or Break A

Zen monk and coach Paul Loomans is the creator of Time Surfing, a 7-step approach to help anyone create more time in their life. "This book is for anyone who feels trapped by over-full, over-scheduled days. It explains how to escape the raging

storms of busyness and find your way back to a more enjoyable and natural relationship with the clock. Time Surfing is a beautiful idea, expressed brilliantly in this beautiful book.” Tony Crabbe, author of international bestseller *Busy: How to Thrive in a World of Too Much* Who has time these days? Any moments that haven’t already been accounted for are swallowed up by smartphones, social media and working into the evening hours. Stress can often seem to be caused solely by the outside world, but in fact it also comes from within. This book will inspire and guide you to choose peace as a basis for carrying out all your daily activities, whether at work or in the home. The approach is based on a step-by-step method called Time Surfing, which consists of seven simple and easy-to-learn instructions backed with targeted tips and techniques. Rooted in Zen Buddhism, the emphasis is very much on making the most of the time you have rather than trying to control time itself. The instructions – which include making time for “breathers” throughout the day and finishing a task before starting another – will feel instinctive, and will make it possible for you to surf over the waves of time. You will learn that you can trust your intuition when it comes to choosing what to do, and, as a result, your actions will be not only inspired but also very effective. The focus you experience will be relaxed and unforced. But, more than anything else, an inner sense of calm will arise.

The book and audio session work together as a complete breakthrough system--a totally natural way to improve your quality of life.

The Hypnotic World of Paul McKenna

All the concepts found in *Conversations with God* revolve, ultimately, around a central theme: the purpose of life is to re-create yourself anew. Yet what does that mean, in human terms? Here, the author of the extraordinary CwG series of books offers a step-by-step explanation of how the process of personal re-creation can work in anyone’s life. In simple, direct, and wonderfully accessible wording, Neale Donald Walsch makes one of the most complex of spiritual concepts come alive, rendering it ready-to-use as a powerful tool. This tool was first described in the companion book *Bringers of the Light*, which offers an exceptionally clear explanation of the spiritual basis behind creating Right Livelihood.

Your Mind and How to Use It

As one of the leaders of the influential New Thought movement, author William Walker Atkinson had an unshakable belief in the power of the human mind -- and he was convinced that most of us fail to fully tap into its remarkable capabilities. Your Mind and How to Use It offers an interesting overview of the basic principles of what Atkinson calls "practical psychology," including actionable tips and techniques to begin to make use of the innate powers of the human mind.

Your Inner Will

More than 50 percent of Americans are overweight and looking for a solution. At last, there has been a weight-loss breakthrough that's easy and has a significant success rate: Paul McKenna's Hypnotic Gastric Band. Gastric band surgery, a radical operation that reduces the available space in the stomach, is a drastic—though often highly effective—treatment that's often a last resort. Hypnotic Gastric Band offers similar results without the risks of surgery: this psychological procedure works to convince the unconscious mind that a gastric band has been put in place, helping the body to behave as if a band were physically present—so it's easy to eat less and lose weight at last, while still feeling completely satisfied. Dr. McKenna spent years researching this groundbreaking process with leading medical experts in weight loss. He describes it as "the closest thing to real magic I have ever experienced," except this procedure isn't magic, it's grounded in solid science. All our decisions about food are made in the mind, which in many ways is like a computer. Hypnosis helps to reprogram the "computer" so that when people eat, they feel full faster. With the Hypnotic Gastric Band there is no dangerous physical surgery, no forbidden food, and no miserable dieting. Instead, the Hypnotic Gastric Band helps people make healthier food choices, enjoy their food more, and eat less without effort and without feeling deprived. The book comes with free digital downloads of guided hypnosis and detailed instructions to install your Hypnotic Gastric Band and to adjust it as the weight comes off. Just read the short book, then download the essential 25-minute hypnotic trance and start reprogramming your mind to eat less.

Your Hidden Riches

This eBook edition of "The Subconscious & The Superconscious Planes of Mind" has been formatted to the highest digital standards and adjusted for readability on all devices. Extract: "The great problems of modern psychology are found to consist largely of the phenomena of the mental operations and activities on planes other than those of ordinary consciousness. While the terminology of the subject is still in a state of transition, nevertheless certain terms have sprung into common use and are employed tentatively by those who write and teach of these wonderful regions of the mind." William Walker Atkinson (1862-1932) was a prolific writer. His works treat themes related to the mental world, occultism, divination, psychic reality, and mankind's nature. They constitute a basis for what Atkinson called "New Psychology" or "New Thought".
