### **The Bar Code Cheat Sheets**

A stereotype bias exists in law school and legal practice favoring the garrulous extrovert. While loquacious law students, professors, lawyers, and judges thrive in a world dominated by the Socratic Method and rapid-fire oral discourse, quiet thinkers and writers can become sidelined. Introverted, shy, or socially anxious law students and lawyers often question their place in the legal arena, though research reveals they offer much-needed gifts to the profession, including active listening, empathy, contemplative analysis, and impactful writing. As legal education and law practice adjust to economic shifts and changing client mindsets, this is a prime opportunity for the legal community to make room for subtler voices. The Introverted Lawyer invites that dialogue into the legal profession. This book explains the differences among introversion, shyness, and social anxiety and how each manifests in the legal context; describes how the extrovert bias in law school and practice detrimentally can impact quiet individuals, fueling enhanced anxiety in a vocation already fraught with mental health issues; explores how quiet law students and lawyers offer greatly needed proficiencies to the legal profession; and finally, presents a seven-step process to help introverted, shy, and socially anxious individuals amplify their authentic lawyer voices, capitalize on their natural strengths, and diminish unwarranted stress. The Introverted Lawyer provides practical, tangible steps for individual growth, as well as a sound platform to enable caring professors, law office mentors, and bar association representatives to educate themselves, their students, and developing lawyers about this

important and often overlooked issue.

What Others are Saying About God and Money "This is one of the most thoughtful and well researched books on giving that I have had the pleasure of reading. The frameworks presented in the book can be used by people at all stages of experiencing the joy of generosity." —Waters Davis, President of National Christian Foundation Houston. "With uncommon transparency, John and Greg provide a Gospel-centered and practical perspective on wealth. Through a leveling critique of comfortable Christianity, they challenge us to wholeheartedly pursue the joy of generosity. Read this book and you will be inspired, convicted and thinking differently about using what God has given you for Kingdom impact." —Peter Greer, President & CEO of HOPE International and coauthor of Mission Drift "In God and Money, Baumer and Cortines challenge Christian readers to consider afresh what generosity looks like in light of the Scripture's radical teaching and the day of affluence in which we live. Whether or not you agree with all their conclusions or personal practices, you will be challenged and inspired." —Robert L. Plummer, Ph.D., Professor of New Testament Interpretation, The Southern Baptist Theological Seminary "I greatly enjoyed reading God and Money! God used the framework Greg and John described to challenge my perspective and practice of generosity. I realized in reading their book that my personal bias is more saver and spender than servant. What I truly desire to be is a fully surrendered servant of Jesus. This book gave me practical frameworks to move in that direction." —Todd Harper, President, Generous Giving "The mission of Harvard Business School is "to educate leaders who make a difference in the world," and in John and Greg that mission has been fulfilled abundantly. It has been my privilege to be their teacher, their colleague and now their friend; and I wish them Godspeed as they take the transformative message found in God and Money out to their community and to the world beyond. I have learned to expect great things from them, and they have yet to disappoint." —Derek van Bever, Senior Lecturer in Business Administration; Director, Forum for Growth and Innovation, Harvard Business School

How does the Supreme Court work? Is there something undemocratic about having unelected judges overturn laws passed by elected legislators? How can a brief, two-hundred-year old constitution continue to provide the fundamental law for governing the United States? In this book a prominent legal scholar explores these questions with unusual clarity. Harry H. Wellington discusses judicial review (the process by which the court decides whether laws are valid) and the interpretive role the court plays in constitutional regulation and the resolution of individual disputes. Written in an engaging and accessible manner, the book offers fascinating examples of the court at work, in particular showing how it has addressed one of the most controversial political and judicial issues of our time--abortion. Harry H. Wellington takes a frank and provocative look at the process of adjudication, showing how it incorporates and shapes public values and mores as they change from one generation to the next. He explains why democracies can tolerate judicial review by nonelected officials and he refutes the politically popular doctrine of "original intent" and explains why those who interpret the Constitution must be responsive to precedent and process. Wellington also shows how the American political system allows the public to respond to the Court's decisions on such strongly debated issues as abortion. Although he argues for the retention of Roe v. Wade, Wellington points out that the Court makes mistakes, and he asserts that institutions, groups, and individuals sometimes have an obligation to contest the court's readings and its authority. This often noisy dialogue, says Wellington, is necessary to make judicial regulation compatible with the democratic ideology on which the United States is based.

### **The Law of Torts**

What do an ex-con, a former drug addict, a real estate broker, a college student and a married mother of two have in common? Nothing, or so I thought. Who would have imagined that God would make a prayer group as mismatched as ours the closest of friends? I almost didn't even go to the Chicago Women's Conference—after all, being thrown together with five hundred strangers wasn't exactly my "comfort zone." But something happened that weekend to make us realize we had to hang together, and the Yada Yada Prayer Group" was born! When I faced the biggest crisis of my life, God used my newfound Sisters to show me what it means to be just a sinner saved by grace.
