Current Diagnosis and Treatment: Geriatrics 2E

A concise yet comprehensive guide to managing cardiac disease, covering diagnostic techniques, treatment, prevention strategies, and prognosis. The Second Edition now includes a new chapter on geriatric cardiology, plus new information on controlling cardiac risk factors and treating cardiac arrhythmias with implantable cardiac devices (ICDs).

CURRENT Diagnosis and Treatment Critical Care, Third Edition

CURRENT Diagnosis and Treatment Pediatrics, Twenty-First Edition

CURRENT Diagnosis & Treatment in Orthopedics, Fifth Edition

First of its kind, bringing the proven Current format to this important specialty. Clinically focused on all aspects of pain.

Current Diagnosis & Treatment

The classic on-the-go guide to pediatric practice -- now more current and essential than ever! Market / Audience Pediatricians (80,000 w/w) Pediatric Residents (8,307 US) Nurse Practitioners (>10,000 US) Family Practice Physicians (93,000 US) Medical Students (70,349 US) About the Book Current Diagnosis and Treatment: Pediatrics has long been a popular component of the Lange Current series, traditionally selling 20,000+ copies worldwide with each edition. Also, the eBook of the 20th edition is currently the second highest-selling eBook on our pediatrics list, after Gomella's Neonatology. Known as the "go-to" guide to pediatric care, the book is updated every two years to keep it current, concise, and practical enough

Access Free Lange Current Diagnosis And Treatment Pediatric Emergency Medicine Lange Current Series

for everyday use by medical students, residents, and pediatricians alike. The 20th edition featured new chapters and an overall expansion of content leading to a higher page count. For the 21st edition, the editors will focus on critical updates, as per usual, but also on fine-tuning the previous edition additions to bring the page count back down. New to this edition is Professor Mark J. Azbug as editor to replace Judy Sondheimer. Dr. Azbug will provide a fresh perspective to the project, particularly to the popular infectious disease chapters. Critical to this title is the timely revision for new generations of incoming students and residents. With the 20th edition, we improved the September publication date by six weeks. For the 21st edition, we aim to improve the date even further by publishing in June 2012, just in advance of the July start of residency programs. This should increase our laydown and adoption opportunities. Features Easy-to-follow Lange Current outline format Organized by general topics as well as by organ systems Comprehensive scope of content with a clinical focus for practical information you can use No other pediatrics text is as up-to-date! Follows "Current" outline format for easy use and quick reference Comprehensive scope Clinical focus About the Authors William W. Hay, Jr., MD is Professor, Department of Pediatrics, Section of Neonatology and the Division of Perinatal Medicine, University of Colorado School of Medicine and The Children's Hospital, Denver. Myron J. Levin, MD, is Professor, Departments of Pediatrics and Medicine, Section of Pediatric Infectious Diseases, University of Colorado School of Medicine and The Children's Hospital, Denver. Robin R. Deterding, MD, is Professor, Department of Pediatrics, Section of Pediatric
