A leadership book by former Navy SEAL and New York Times bestselling author Mark Divine, *Staring Down the Wolf* focuses on harnessing the principles of purpose and discipline in life to achieve success. What does it take to command a team of elite individuals? It requires a commitment to seven key principles: Courage, Trust, Respect, Growth, Excellence, Resiliency, and Alignment. All of these are present in an elite team which commits to them deeply in order to forge the character worthy of uncommon success. Retired Navy SEAL Commander, entrepreneur and New York Times bestselling author Mark Divine (founder of SEALFIT, NavySeal.com, and Unbeatable Mind) reveals what makes the culture of an elite team, and how to get your own team to commit to serve at an elite level. Using principles he learned on the battlefield, training SEALs, and in his own entrepreneurial and growth company ventures, Mark knows what it is to lead elite teams, and how easily the team can fail by breaching these commitments. Elite teams challenge themselves to step up everyday to do the uncommon. Developing

the principles yourself and aligning your team around these commitments will allow you to thrive in VUCA (volatility, uncertainty, complexity, ambiguity) environments, no matter your background or leadership experience. Drawing from his twenty years leading SEALs, and twenty five years of success and failure in entrepreneurship and ten years coaching corporate clients, Mark Divine shares a very unique perspective that will allow you to unlock the tremendous power of your team. “Mark Divine has a gift for creating highly effective dynamic teams. Mark interleaves key aspects of leadership, mental toughness, resiliency and cultivating higher plains of existence into a foundational concept of being an authentic ‘Leader of leaders.’ This book is indispensable for anyone looking to lead, build and foster an elite culture.” –Mike Magaraci, retired Force Master Chief of Naval Special Warfare “From his time as a Commander in the SEAL Teams to building several successful multimillion dollar businesses, Mark Divine is an authority on building elite teams and leaders capable of tapping their fullest potential.” –David Goggins, Retired Navy SEAL, author of New York Times Bestseller Can’t Hurt Me “To grow to your fullest capacity in your life and as a leader, we need to challenge ourselves. There’s no one I know who’s challenged himself more than Mark Divine. He’s the perfect visionary to help get you out of your comfort zone and shattering the status quo.” –Joe De Sena, Founder and CEO of Spartan

### **Ready for Fce**

A landmark book about how we form habits, and what we can do with this knowledge to make positive change. We spend a shocking 43 percent of our day doing things without thinking about them. That means that almost half of our actions aren't conscious choices but the result of our non-conscious mind nudging our body to act along learned behaviors. How we respond to the people around us; the way we conduct ourselves in a meeting; what we buy; when and how we exercise, eat, and drink—a truly remarkable number of things we do every day, regardless of their complexity, operate outside of our awareness. We do them automatically. We do them by habit. And yet, whenever we want to change something about ourselves, we rely on willpower. We keep turning to our conscious selves, hoping that our determination and intention will be enough to effect positive change. And that is why almost all of us fail. But what if you could harness the extraordinary power of your unconscious mind, which already determines so much of what you do, to truly reach your goals? Wendy Wood draws on three decades of original research to explain the fascinating science of how we form habits, and offers the key to unlocking our habitual mind in order to make the changes we seek. A potent mix of neuroscience, case studies, and experiments conducted in her lab, *Good Habits, Bad Habits* is a comprehensive, accessible, and above all deeply practical book that will change the way you think about almost every aspect of your life. By explaining how our brains are wired to respond to rewards, receive cues from our surroundings, and shut down when faced with too much friction, Wood skillfully dissects habit formation, demonstrating how we can

take advantage of this knowledge to form better habits. Her clear and incisive work shows why willpower alone is woefully inadequate when we're working toward building the life we truly want, and offers real hope for those who want to make positive change.
