BMW 2-Valve Twins 1970-1996

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

WALNECK'S CLASSIC CYCLE TRADER, SEPTEMBER 2004

Hugo Award-winning author Allen Steele returns to the universe of his Coyote Trilogy and Spindrift with the story of one man's trials and tribulations as he voyages across the cosmos—and within himself. "My name is Jules Truffant, and this is the story of how I redeemed the human race . . ." Expelled from the Union Astronautica space fleet, Jules Truffant faces a future on the ground instead of in the stars. Desperate to put his disgrace behind him, he stows away onboard a Coyote Federation flagship in order to start his life over on the colony world. But after a misunderstanding involving a stolen lifeboat and a crash landing, Jules begins his new life on Coyote in prison. Before he can be deported back to Earth for a lengthy incarceration, Jules receives an unexpected visitor. Morgan Goldstein, a billionaire entrepreneur, offers him a proposition: sign up as shuttle pilot aboard the freighter Pride of Cucamonga in exchange for amnesty. The Pride's mission to Rho Corenae Borealis to develop a trade relationship with the alien hjadd runs smoothly—at first. Then Jules's luck betrays him once again. Now, to make amends with both the aliens and his employers, he must take part in a voyage across the galaxy to place a probe squarely in the path of a black hole as it plows through an inhabited star system.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis

geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.
