Strategic Security Management supports data driven security that is measurable, quantifiable and practical. Written for security professionals and other professionals responsible for making security decisions as well as for security management and criminal justice students, this text provides a fresh perspective on the risk assessment process. It also provides food for thought on protecting an organization's assets, giving decision makers the foundation needed to climb the next step up the corporate ladder. Strategic Security Management fills a definitive need for guidelines on security best practices. The book also explores the process of in-depth security analysis for decision making, and provides the reader with the framework needed to apply security concepts to specific scenarios. Advanced threat, vulnerability, and risk assessment techniques are presented as the basis for security strategies. These concepts are related back to establishing effective security programs, including program implementation, management, and evaluation. The book also covers metric-based security resource allocation of countermeasures, including security procedures, personnel, and electronic measures. Strategic Security Management contains contributions by many renowned security experts, such as Nick Vellani, Karl Langhorst, Brian Gouin, James Clark, Norman Bates, and Charles Sennewald. Provides clear direction on how to meet new business demands on the security professional Guides the security professional in using hard data to drive a security strategy, and follows through with the means to measure success of the program Covers threat assessment, vulnerability assessment, and risk assessment - and highlights the differences, advantages, and disadvantages of each

### **Consumer's Guide to Modern Electronic Security**

### **Guide to Security Considerations and Practices for Rare Book, Manuscript, and Special Collection Libraries**

This text uses both theory and practical application of leadership and management precepts to lead the reader through a variety of common scenarios. The theory is

tied to actual experiences and scenarios that educate the reader through the critical thought process of decision making. This adds a level of learning not found in many texts that address either theory or practical applications but fail to link them. The topics discussed range from effective techniques in communications, decision-making issues and methods, and resource management. Issues that are critical to the manager such as emergency planning, response to critical incidents, supervision of specialty teams and operational issues are explored. One of the essential skills discussed for the manager is the collection, compilation, and interpretation of data. Data interpretation is the driving force in the allocation of resources and deployment of personnel. Further, this skill is important in the development of funding through grants. The manager's role in discipline, use of force, and morale are addressed. Timely events regarding the law enforcement manager's response to weapons of mass destruction, racial profiling, and litigation receive attention. Systems analysis is explored to educate the manager to appreciate upstream and downstream impacts of their decisions. Contemporary issues from the perspective of the supervisor and manager is addressed, with lessons learned and information conveyed that is applicable at all levels of management.

Crime directed against business is a serious problem embracing theft of property, fraud, embezzlement, burglary, criminal damage, bribery and corruption, theft of corporate information, and other similar activities. Apart from having a disruptive effect on the running of a company, the results can be financially disastrous. Few businesses can afford to employ security specialists to manage these risks and most managers find it difficult to assess the threats and to select the appropriate countermeasures. The Handbook of Business Security, fully revised to include updated information on changing technology, addresses all of these aspects.
