A charming biography of the artist behind the bestselling "This is" series of children's books--which have sold over a million copies since being reissued by Universe--illustrated in the style of Miroslav Sasek himself. Replete with documents, memories, and images from the life of Miroslav Sasek, this book is richly illustrated with material from Sasek's books as well as such archival material as previously unpublished illustrations, photographs, and vintage fan letters from children inspired by his books. Born in Prague in 1916, Sasek studied architecture but worked as a painter and illustrator for most of his life. Having moved to Paris in 1947 to study, he chose not to return to Prague after the Communist takeover. He earned a living as a graphic artist and from 1951 worked for Radio Free Europe until his death in 1980. Starting with This is Paris, published in 1957, his books painted a charmingly cosmopolitan and evocative picture of the world's great places. Beginning in 2003, all the This is books have been reissued by Universe Publishing. This book about the beloved illustrator will delight graphic designers, illustrators, and lovers of classic children's books.

But getting along is difficult when you're the son of a federal arms negotiator who renounces her U.S. citizenship to become an official of the New Republic of Hawaii, hoping ultimately to negotiate world peace. When tiny African country Durban explodes a weapon into the atmosphere that changes the earth's racial makeup, other nations gear up their own not-so-passive artillery, bringing on Armageddon. With no other chance for survival, Josh uses Big Daddy's time gadget to transport him and Keala, his Hawaiian-Japanese girlfriend, to a bizarre future that ends up looking a lot like home.

Ever wonder if the characters you see on TV, in movies and in comic books are hiding something behind their masks? That perhaps they're really someone -- or something -- else? When pop culture is such a huge part of our lives, we're bombarded with these characters everywhere we turn. Each time we see a new character in a movie, video game or commercial, we feel a sudden sense *deja vu*. There's something about their goofy grin, that creepy laugh, or those boogly eyes that feels eerily familiar. This got me thinking. Is anything we see ever 100% original? Or is everything we experience really just our minds piecing together past experiences to create something that feels unique and new? In *Icons Unmasked*, I'm trying to bring a new sense of discovery to characters everyone has seen hundreds of times. I wanted to recreate the experience of what it might be like to see one iconic character from your childhood for the first time as an adult. Proceed at your own caution and keep in mind the following illustrations cannot be unseen. Your childhood might possibly be destroyed forever

Now, you can enjoy quality videos and actually create one yourself. A 13MP rear camera with ultra-wide angles and a smart AI would see to that. High-powered entertainment needs high storage. The Samsung Galaxy Tab doesn't fail in this regard. Here, we have a Laptop Storage capacity in a tablet frame. The processing power won't fail you either. A lag-free tab this is. We won't fail to mention its monster battery. A 7040mAH battery means there's actually no need to worry about your device tripping OFF on you. It simply can't. With Bixby, everything's smart. Your tab has become a one-stop-shop for controlling your appliances even when you're far from home. Samsung's done a nice job here, and for us, it is a pat on the back, from us to them. Now let's get into the main business of providing you with a quality manual to go with this beast of a device. We sincerely hope it answers your every question.
