The Latin American studies collections at many community, junior and four year colleges, and large public libraries often contain materials that are too specialized, uneven, outdated, incomplete, or written in Spanish or Portuguese--thus rendering them essentially useless to English-reading patrons. Better materials are out there, but librarians simply have not had, until now, a good resource guide to help in locating them. This work, designed as an acquisitions tool for colleges and libraries, is an annotated bibliography of approximately 1,400 recommended books published from 1986 through 2000 in the field of Latin American studies. It is divided into chapters that deal with reference works, descriptive accounts and travel guides, the humanities, language and literature, the social sciences, and science and technology. For the purposes of this book, Latin America is defined as all geographic locations south of the Rio Grande. While these are chiefly Spanish and Portuguese speaking regions, works about French, English, and Dutch speaking areas are also included. The literary works of authors living abroad are included if they are considered quintessentially Latin American. Periodicals, children's literature, audio-visual resources, and works about the Hispanic and Latino experience in the United States are not included. The majority of the works presented here were selected based on reviews from Booklist, Choice, Hispanic American Historical Review, Library Journal, Los Angeles Times Book Review, New York Review of Books, New York Times Book Review and Publisher's Weekly; also consulted were the catalogs of major university presses that focus on Latin American studies.

Reveals the radical ancient practice of living resurrection, in which initiates ritually died and were reborn into a state of higher consciousness • Explores living resurrection initiation practices from world cultures, including Egyptian, Greek, Gnostic, Chinese, Celtic, and Native American traditions • Describes the secret chambers and temples where Mystery Schools practiced “raising the dead” • Shows why this practice was branded a heresy and suppressed by the Church More than two thousand years before the resurrection of Jesus, initiates from spiritual traditions around the world were already practicing a secret mystical ritual in which they metaphorically died and were reborn into a higher spiritual state. During this living resurrection, they experienced a transformative spiritual awakening that revealed the nature of reality and the purpose of the soul, described as “rising from the dead.” Exploring the practice of living resurrection in ancient Egyptian, Phoenician, Greek, Persian, Indian, Japanese, Chinese, Celtic, and Native American traditions, Freddy Silva explains how resurrection was never meant for the dead, but for the living--a fact supported by the suppressed Gnostic Gospel of Philip: “Those who say they will die first and then rise are in error. If they do not first receive the resurrection while they live, when they die they will receive nothing.” He reveals how these practices were not only common in the ancient world but also shared similar facets in each tradition: initiates were led through a series of challenging ordeals, retreated for a three-day period into a cave or restricted room, often called a “bridal chamber,” and while out-of-body, became fully conscious of travels in the Otherworld. Upon returning to the body, they were led by priests or priestesses to witness the rising of Sirius or the Equinox sunrise. Silva describes some of the secret chambers around the world where the ritual was performed, including the so-called tomb of Thutmose III in Egypt, which featured an empty sarcophagus and detailed instructions for the living on how to enter the Otherworld and return alive. He reveals why esoteric and Gnostic sects claimed that the literal resurrection of Jesus promoted by the Church was a fraud and how the Church branded all living resurrection practices as a heresy, relentlessly persecuting the Gnostics to suppress knowledge of this self-empowering experience. He shows how the Knights Templar revived these concepts and how they survive to this day within Freemasonry. Exploring the hidden art of living resurrection, Silva shows how this personal experience of the Divine opened the path to self-empowerment and higher consciousness, leading initiates such as Plato to describe it as the pinnacle of spiritual development.

The societies of the Vaupés region are now among the most documented indigenous cultures of the New World, in part because they are thought to resemble earlier civilizations lost during initial colonial conflict. Here at last is the eagerly awaited publication of a posthumous work by the man widely regarded as the preeminent authority on Vaupés Amazonian societies. Cubeo Hehénéwa Religious Thought will be the definitive account of the religious worldview of a significant Amazonian culture. Cubeo religious thought incorporates ideas about the nature of the cosmos, society, and human life; the individual's orientation to the world; the use of hallucinogenic substances; and a New World metaphysics. This volume was substantially completed before Irving Goldman's death, but Peter Wilson has edited it for publication, providing a thorough introduction to Goldman's work. Stephen Hugh-Jones has contributed an afterword, setting the work in the context of contemporary Vaupés ethnography.

As a kid I was brought up in the Catholic Church. I thought it was a good thing for society to have religious standards but then I realized I have my own natural, inherent moral code inside of me. Some parts of the Bible contradict each other like the jealous God of the Old Testament who suddenly saw the wrong of His ways and became loving in the New Testament which is kinda funny if God is divinely wise. There are many rules in the Old Testament condemning people to death for trivial transgressions. They accepted slavery as a part of normal life in the Old Testament. Who did Cain and Abel marry if they were the children of the first man and woman on Earth?

The author has utilized the tools of modern biblical criticism to strip away much of the mythology and misunderstanding about the nature of the historical Jesus. His goal has been to discover Jesus in his setting of first century Palestine, and to illuminate his life, ministry, death and resurrection from this context. Jesus in the Gospels elucidates a more authentic Jesus allied to the liturgical and theological development of the early Christian church.
