Seven stunning stories of speculative fiction by the author of *A Boy and His Dog*. In a post-apocalyptic world, four men and one woman are all that remain of the human race, brought to near extinction by an artificial intelligence. Programmed to wage war on behalf of its creators, the AI became self-aware and turned against humanity. The five survivors are prisoners, kept alive and subjected to brutal torture by the hateful and sadistic machine in an endless cycle of violence. This story and six more groundbreaking and inventive tales that probe the depths of mortal experience prove why Grand Master of Science Fiction Harlan Ellison has earned the many accolades to his credit and remains one of the most original voices in American literature. *I Have No Mouth and I Must Scream* also includes "Big Sam Was My Friend," "Eyes of Dust," "World of the Myth," "Lonelyache," Hugo Award finalist "Delusion for a Dragon Slayer," and Hugo and Nebula Award finalist "Pretty Maggie Moneyeyes."

Visual Chronicles

Go behind the scenes of *Altered Carbon* in this exclusive collection of art. Packed with concept art, final designs, and artist commentary plus previously unseen storyboards. Awaken into the cyberpunk world of Skydance's *Altered Carbon*. Stacks - implanted chips that store human consciousness - have made death obsolete. When Envoy Takeshi Kovacs finds himself sleeved in an unfamiliar body and assigned to investigate the murder of a wealthy businessman, he begins to uncover the seedy underbelly of a society

where death is no longer permanent. This richly detailed and beautiful coffee table book takes readers from the glittering Aerium to the gritty streets of Bay City. Featuring development art, stills, set photos, storyboards, and VFX builds from the first two seasons, plus interviews with cast and crew. *Altered Carbon: The Art and Making of the Series* will bring readers into this visually stunning futuristic world where technology has transformed mortality.

Altered

Cunningham's classic introduction to Wicca is about how to live life magically, spiritually, and wholly attuned with nature. It is a book of sense and common sense, not only about magick, but about religion and one of the most critical issues of today: how to achieve the much needed and wholesome relationship with our Earth. Cunningham presents Wicca as it is today: a gentle, Earth-oriented religion dedicated to the Goddess and God. Wicca also includes Scott Cunningham's own *Book of Shadows* and updated appendices of periodicals and occult suppliers.

Pockets, Pull-Outs, and Hiding Places

They were made to forget. But they'll never forgive. Everything about Anna's life is a secret. Her father works for the Branch, at the helm of its latest project: monitoring and administering treatments to the four genetically altered boys in the lab below their farmhouse. There's Nick, solemn and brooding; Cas,

Read Book The Complete Guide To Altered Imagery Mixed Media Techniques For Collage Altered Books Artist Journals And More Karen Michael

light-hearted and playful; Trev, smart and caring; and Sam . . . who's stolen Anna's heart. When the Branch decides it's time to take the boys, Sam stages an escape. Anna's father pushes her to go with them, making Sam promise to keep her away from the Branch, at all costs. On the run, with her father's warning in her head, Anna begins to doubt everything she thought she knew about herself. She soon discovers that she and Sam are connected in more ways than either of them expected. And if they're both going to survive, they must piece together the clues of their past before the Branch catches up to them and steals it all away.

Pagan Dreaming

Presents eighteen step-by-step projects, along with variation ideas, to create an array of altered books.

Art Made from Books

Druker discusses how the massive enterprise to restructure the genetic core of the world's food supply came into being, how it advanced by consistently violating the protocols of science, and how for more than three decades, hundreds of eminent biologists and esteemed institutions have systematically contorted the truth in order to conceal the unique risks of its products--and get them onto our dinner plates.

Altered Books are an exciting art form that you are sure to enjoy. There are many ways to embellish books and pages with an infinite variety of materials to enhance your designs. Altered Book - Special Effects gives ideas for folds, colors, windows, doors, tags, collages and more. Jump right in to create your own journal you will love every great idea in this book!

I Have No Mouth & I Must Scream

Altered! Art Projects is a must-have collection of altered art featuring unique and trendy ideas. The term “altered art” conjures up different visions and ideas for every individual. Artists seem to be especially adept at finding their own characteristic meaning for anything they choose to give this name. Altered art is something that has changed from the original concept, creating something new and different. Projects featured in this book include birdhouses, shadowboxes, framed collages, scrapbook pages and much more. A simple canvas or photo can undergo complete metamorphosis, just like a caterpillar becoming a butterfly. Transition using distress, texture, collage, and embellishments; enclose in a frame or shadowbox and you have created altered art! It is no longer a simple canvas or photo, but your own unique creation. The piece has not only changed, but also become more meaningful—this is an artist’s gift.

Read Book The Complete Guide To Altered Imagery Mixed Media Techniques For Collage Altered Books Artist Journals And More Karen Michael

In the 1960s, Americans combined psychedelics with Buddhist meditation to achieve direct experience through altered states of consciousness. As some practitioners became more committed to Buddhism, they abandoned the use of psychedelics in favor of stricter mental discipline, but others carried on with the experiment, advancing a fascinating alchemy called psychedelic Buddhism. Many think exploration with psychedelics in Buddhism faded with the revolutionary spirit of the sixties, but the underground practice has evolved into a brand of religiosity as eclectic and challenging as the era that created it. *Altered States* combines interviews with well-known figures in American Buddhism and psychedelic spirituality—including Lama Surya Das, Erik Davis, Geoffrey Shugen Arnold Sensei, Rick Strassman, and Charles Tart—and personal stories of everyday practitioners to define a distinctly American religious phenomenon. The nuanced perspective that emerges, grounded in a detailed history of psychedelic religious experience, adds critical depth to debates over the controlled use of psychedelics and drug-induced mysticism. The book also opens new paths of inquiry into such issues as re-enchantment, the limits of rationality, the biochemical and psychosocial basis of altered states of consciousness, and the nature of subjectivity.

If you're looking for a scalable storage solution to accommodate a virtually endless amount of data, this book shows you how Apache HBase can fulfill your needs. As the open source implementation of Google's BigTable architecture, HBase scales to billions of rows and millions of columns, while ensuring that write and read performance remain constant. Many IT executives are asking pointed questions about HBase. This book provides meaningful answers, whether you're evaluating this non-relational database or planning to put it into practice right away. Discover how tight integration with Hadoop makes scalability with HBase easier. Distribute large datasets across an inexpensive cluster of commodity servers. Access HBase with native Java clients, or with gateway servers providing REST, Avro, or Thrift APIs. Get details on HBase's architecture, including the storage format, write-ahead log, background processes, and more. Integrate HBase with Hadoop's MapReduce framework for massively parallelized data processing jobs. Learn how to tune clusters, design schemas, copy tables, import bulk data, decommission nodes, and many other tasks.

the artistic world where they can discover their creative muse which is waiting to come out and play. It is at heart a technique book for altered artists, but is housed within a wonderful, spectacular fantasy land. The book will bring the reader, the daydreamer, the explorer, the artist, to a place have never been, where they can unleash their artistic dreams and explore hidden worlds through cutting-edge techniques, creative projects, and beautiful images. The book will include easy tutorials on basic digital altering effects for new and vintage images, step by step instruction for projects, a gallery of inspirational projects from other artists, and clip art and vintage images for readers to use in their own projects. The book will cover digital and paper alteration, creating from found and household objects (jars and boxes), will feature playful illustration, vintage imagery, and use a myriad of other mixed-media materials ranging from glitter and wire to crinolin and coloring agents.

Wicca

Cannabis sativa is best known as the source of marijuana, the world's most widely consumed illicit recreational drug. However, the plant is also extremely useful as a source of stem fiber, edible seed oil, and medicinal compounds, all of which are undergoing extremely promising research, technological applications, and business investment. Indeed, despite its capacity for harm as a recreational drug, cannabis has phenomenal potential for providing new products to benefit society and for generating extensive employment and huge profits.

Read Book The Complete Guide To Altered Imagery Mixed Media Techniques For Collage Altered Books Artist Journals And More Karen Mitchell

Misguided policies, until recently, have prevented legitimate research on the beneficial properties of cannabis, but there is now an explosion of societal, scientific, and political support to reappraise and remove some of the barriers to usage. Unfortunately, there is also a corresponding dearth of objective analysis. Towards redressing the limitation of information, Cannabis: A Complete Guide is a comprehensive reference summarizing botanical, business, chemical, ecological, genetic, historical, horticultural, legal, and medical considerations that are critical for the wise advancement and management of cannabis in its various forms. This book documents both the risks and benefits of what is indisputably one of the world's most important species. The conflicting claims for medicinal virtues and toxicological vices are examined, based mainly on the most recent authoritative scientific reviews. The attempt is made consistently to reflect majority scientific opinion, although many aspects of cannabis are controversial. Aside from the relevance to specialists, the general public should find the presentation attractive because of the huge interest today in marijuana. Unfortunately, society has become so specialized and compartmentalized that most people have limited appreciation of the importance of science to their lives, except when a topic like marijuana becomes sensationalized. This review of cannabis can serve as a vehicle for public education in the realm of science and technology. Indeed, towards the goal of disseminating the important information in this book to a wide audience, the presentation is user-friendly, concise, and well-illustrated in the hope that non-specialists will find the

The Complete Guide to Lincoln Cents

Addresses misconceptions about meditation, as well as the benefits and lasting traits that it can create by looking at how people can derive the greatest benefits from the practice by developing a broad array of mind-training methods.

Altered Book

Get nose to bloom with one of the most beloved subjects of painters for generations of artists with Expressive Flower Painting and master pedals, stems, colors, and more. It's almost always one of the first things someone tries to paint--center, petals, stem, voila! Expressive Flower Painting's exercises have a loose, free, contemporary style the likes of which you'd see in galleries, in shops, and even on clothing and home design goods. It's not intimidating, and yet the paintings are colorful, immediate, and joyful and speak to the artist's desire to play, be loose, and to create freely. Lynn Whipple paints wildly and in small to large formats with a combination of acrylic paint, charcoal, and colorful soft pastel. Expressive Flower Painting presents a range of creative painting exercises that help readers develop vibrant nature paintings. This exciting book is an in-depth expansion of Lynn's class called Big Bold Bloom Wild Painting, with additional content. Expressive Flower Painting covers mark making, layering techniques, how to do "spin drawings," color methods, painted backgrounds,

working from life, and how to successfully combine a wide variety of media for the maximum effect.

Altered Books 101

Welcome back to the brash, brutal new world of the twenty-fifth century: where global politics isn't just for planet Earth anymore; and where death is just a break in the action, thanks to the techno-miracle that can preserve human consciousness and download it into one new body after another. Cynical, quick-on-the-trigger Takeshi Kovacs, the ex-U.N. envoy turned private eye, has changed careers, and bodies, once more . . . trading sleuthing for soldiering as a warrior-for-hire, and helping a far-flung planet's government put down a bloody revolution. But when it comes to taking sides, the only one Kovacs is ever really on is his own. So when a rogue pilot and a sleazy corporate fat cat offer him a lucrative role in a treacherous treasure hunt, he's only too happy to go AWOL with a band of resurrected soldiers of fortune. All that stands between them and the ancient alien spacecraft they mean to salvage are a massacred city bathed in deadly radiation, unleashed nanotechnology with a million ways to kill, and whatever surprises the highly advanced Martian race may have in store. But armed with his genetically engineered instincts, and his trusty twin Kalashnikovs, Takeshi is ready to take on anything—and let the devil take whoever's left behind. From the Trade Paperback edition.

The Complete Guide to Altered Imagery

Read Book The Complete Guide To Altered Imagery Mixed Media Techniques For Collage Altered Books Artist Journals And More Karen Michael

The real news of our lives is not in newspapers. We must chronicle our own adventures and achievements, our brilliant observations and our comic relief, our best friends and our greatest embarrassments. Visual Chronicles is all about YOU: your dreams, your memories, your daily routines, your greatest loves and your secret pet peeves. It's all about getting to know yourself better, savoring the wonderful ebb and flow of your everyday, and celebrating it all in visual mementos of your life journey. Sound fun? Heck, yes! Sound hard? Not a bit. Each chapter of Visual Chronicles quiets common fears such as "Nothing happens in my life." or "I'm just not artistic." with projects such as the "My Day Unfolds Journal", and "Experiments with Composition." Inside, you'll learn that journaling doesn't take big chunks of time - just bits and pieces here and there, whenever the spirit strikes. "Get Going" exercises offer instant ideas such as listening to the conversations you have with yourself or recognizing that meaningful ephemera is a part of each and every day. Soon, you'll see that inspiration awaits all around you: a midnight trip to the store, a favorite scarf, an unexpected phone call, junk email, your breakfast plate . . . Don't wait another second. Make creative journaling a part of your everyday life, busting through self-doubt, time clocks, piles of laundry, and every other roadblock along the way. With Visual Chronicles, you'll be inspired to tell your story the way only you can!

psychedelic self, ancient female roots of shamanism, and how altered states naturally tap into the female archetype • Discusses feminist psychedelic activism, female ecstasies, goddess consciousness, the dark feminine, and embodied paths to ecstasy • Includes contributions by Martina Hoffmann, Amanda Sage, Carl Ruck, and others Women have been shamans since time immemorial, not only because women have innate intuitive gifts, but also because the female body is wired to more easily experience altered states, such as during the process of birth. Whether female or male, the altered states produced by psychedelics and ecstatic trance expand our minds to tap into and enhance our feminine states of consciousness as well as reconnect us to the web of life. In this book, we discover the transformative powers of feminine consciousness and altered states as revealed by contributors both female and male, including revered scholars, visionary artists, anthropologists, modern shamans, witches, psychotherapists, and policy makers. The book begins with a deep look at the archetypal dimensions of the feminine principle and how entheogens give us open access to these ancient archetypes, including goddess consciousness and the dark feminine. The contributors examine the female roots of shamanism, including the role of women in the ancient rites of Dionysus, the Eleusinian Sacrament, and Norse witchcraft. They explore psychedelic and embodied paths to ecstasy, such as trance dance, holotropic breathwork, and the similarities of giving birth and taking mind-altering drugs. Looking at the healing potential of the feminine and altered states, they discuss the power of plant medicines, including

Read Book The Complete Guide To Altered Imagery Mixed Media Techniques For Collage Altered Books Artist Journals And More Karen Michael

ayahuasca, and the recasting of the medicine-woman archetype for the modern world. They explore the feminine in the creative process and discuss feminist psychedelic activism, sounding the call for more female voices in the psychedelic research community. Sharing the power of “femtheogenic” wisdom to help us move beyond a patriarchal society, this book reveals how feminine consciousness, when intermingled with psychedelic knowledge, carries and imparts the essence of inclusivity, interconnectedness, and balance our world needs to heal and consciously evolve.
