Outlook

Data Mining with Rattle and R

An irresistible novel by multi-talented Stephen Fry, author, film and television star, playwright and newspaper columnist. "The spirits of Oscar Wilde and Evelyn Waugh glower benignly over this very funny first novel . . . An ingenious plot filled with surprises and glittering with hilarious, often indecent inventions."—The New York Times Book Review "Transforms the sophomoric into the sophisticated."—Los Angeles Times

Stranger by Night

The latest in the Hot Blood series is a collection of terrifying and titillating stories by authors who embrace the seductive side of horror--where what happens in the dark stays in the dark.

The Liar

Data mining is the art and science of intelligent data analysis. By building knowledge from information, data mining adds considerable value to the ever increasing stores of electronic data that abound today. In performing data mining many decisions need to be made regarding the choice of methodology, the choice of data, the choice of tools, and the choice of algorithms. Throughout this book the reader is introduced to the basic concepts and some of the more popular algorithms of data mining. With a focus on the hands-on end-to-end process for data mining, Williams guides the reader through various capabilities of the easy to use, free, and open source Rattle Data Mining Software built on the sophisticated R Statistical Software. The focus on doing data mining rather than just reading about data mining is refreshing. The book covers data understanding, data preparation, data refinement, model building, model evaluation, and practical deployment. The reader will learn to rapidly deliver a data mining project using software easily installed for free from the Internet. Coupling Rattle with R delivers a very sophisticated data mining environment with all the power, and more, of the many commercial offerings.

Knuckleheads in the News

This volume presents the basic issues and up-to-date research findings in the area of genius, giftedness and creative behaviour. It gives an appreciation of the potential that exists among talented children and adults and how this can be transformed into highly significant and personally satisfying achievements. It also shows that such achievement involves great personal effort but can be facilitated by human relationships, institutional interventions, and historical conditions which present parents, educators and society with opportunities for maximizing the development of genius, giftedness, and creativity.

Stereo Review

Chile peppers are hot--they add culinary fire to dishes from a variety of cuisines and inspire near-fanatical devotion in vegetable gardeners and collectors. The Complete Chile Pepper Book, by world-renowned chile experts Dave DeWitt and

Paul W. Bosland, shares detailed profiles of the one hundred most popular chile varieties and include information on how to grow and cultivate them successfully, along with tips on planning, garden design, growing in containers, dealing with pests and disease, and breeding and hybridizing. Techniques for processing and preserving include canning, pickling, drying, and smoking. Eighty-five mouth-watering recipes show how to use the characteristic heat of chile peppers in beverages, sauces, appetizers, salads, soups, entrees, and desserts. This gorgeously illustrated, must-have reference for pepper-obsessed gardeners and cooks.

The Economics of Regional Clusters

The Complete Chile Pepper Book

PC Magazine

Il Mondo

Drawing from his extensive business management experience, Pradip Chand turns traditional wisdom on its head when he proposes that Brand Loyalty is inversely proportional to the income and education levels of the 'knowledge consumer'. He examines how and why brands become strategic assets, traces the evolution of the knowledge consumer and what can companies do to protect equity of the brands they have nurtured over the decades. A new approach to building a Brand Loyalty that gives marketers a competitive edge in today's high-tech, high-stake brand-hostile environment. The book combines the knowledge with engaging real life case studies and proven examples.

A Requiem for a Brand

In the future, shopping will be greatly influenced by a combination of localization issues, mobile internet at the point of sale, and use of social networks. This book focuses on the 'SoLoMo synergies' that arise from this paradigm shift in future shopping, which also promises new and effective marketing options for traditional retailers. It also reflects the current status of research and business practice, analyzing the basic factors of SoLoMo in detail. The importance of Location-based Services (LBS) is elaborated and analyzed in an empirical study using a market based case of kaufDA - a leading German online shopping network. The evidence shows that customers see LBS as an attractive tool and are prepared to change their buying behavior. Though LBS is still in its early stages and its professional longevity remains to be seen, it also promises tremendous potential for the future.

L'Expansion

Beguiling and bewitching stories from Ramsey Campbell, Brian Lumley, Graham Masterton, and others will give you goosebumps—in more ways than one . . . Sex and horror, intertwined since the beginning of the human race, take on all new twists, turns, and contortions in Stranger by Night, sixth in the Hot Blood erotic horror anthology series—with one of its most illustrious lists of contributors. Two of the United Kingdom's greatest horror writers, Ramsey Campbell and Brian Lumley, both appear. Actress and scream queen Brinke Stevens contributes original fiction.

Comics illustrator and TV writer Bruce Jones features in the Hot Blood series for the first time, while Graham Masterton returns with another classic. Lucy Taylor and Brian Hodge are among the other brilliant horror writers, eighteen stories in all, that probe every dark desire. The Heliocentric Net said, "whatever your tastes, be prepared to be titillated and terrorized," and according to Deathrealm, "Stranger by Night demonstrates that the Hot Blood books haven't lost their steam in any sense of the phrase." Praise for the Hot Blood series "Read Hot Blood late at night when the wind is blowing hard and the moon is full." —Playboy "Outstanding . . . A daring combination of sex and terror." —Cemetery Dance "Will appeal to your every kink." —Locus "Seek out this one (or its predecessors) for some naughty fun." —Booklovers

Lithium-Ion Batteries

Bedford's Tech Edge

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.
