Australian National Bibliography

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

Yamaha XT500 (F)

The Kawasaki Triples Bible covers the entire production of three cylinder two-strokes from 1967 to 1980, featuring a year by year breakdown of bike specs, including the KH250, 350 S2, KH400, H1 500 and H2 750 models. Illustrated with hundreds of archive photographs and period adverts, plus personal memories from some of the racers and tuners who got the best from the fearsome H1 500 and H2 750 machines of the 60s and 70s, this is an invaluable resource for any collector or restorer of these fabulous motorcycles. With information provided by Kawasaki Museum, acknowledged experts such as Rick Brett and Dave Marsden, and lifelong Kawasaki triples owners, it defines the enduring appeal of the models. It also contains excellent tips on spares, tuning, rebuilds etc., and captures the very essence of what made the Kawasaki triples the most rebellious, kick-ass two-strokes of their time.

Feminism and the Politics of Travel After the Enlightenment

Systematic, illustrated units equip student mechanics and motorcycle owners with knowledge of the skills that are essential for successful motorcycle maintenance and repair

Motorcycle Mechanics

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Yamaha YFS200 Blaster ATV

In light of the tremendous changes that have come to the island of Borneo in recent decades, this volume takes a detailed historical look at the Borneo environment from native, colonial and national perspectives. It examines change and continuity in the economic, political and social dimensions of human-environment interactions. Reflecting the increasingly multidisciplinary nature of environmental history, the book brings together an international group of historians, anthropologists, geographers and social foresters, all looking through a historical lens at the environment in the Malaysian states of Sabah and Sarawak, and the Indonesian province of Kalimantan and Brunei. Drawing on extensive archival research and fieldwork, these ten original contributions encompass eleven centuries of history on Borneo, examining interrelated topics that include long-distance trade, conservation, land tenure, resource access, property rights, perceptions of the environment, migration, and development policy and practice.

The chapters in this volume are extensively revised versions of selected papers presented at an international seminar on "Environmental change in native and colonial histories of Borneo: Lessons from the past, prospects for the future" held in Leiden under the auspices of the International Institute for Asian Studies.

WALNECK'S CLASSIC CYCLE TRADER, AUGUST 2005

Off-road riding is one of motorcycling's most popular pursuits and also one of its best training grounds for improving street-riding skills. Off-road riding takes many

forms, from motocross and enduro racing, to dual-sport day trips, to trail riding, to adventure tours. No matter the specific pursuit, all dirt riding (and much street riding) shares the same basic skill set. *How to Ride Off-Road Motorcycles* schools the reader in all the skills necessary to ride safely and quickly off-road. Chapters cover the basics, such as body position, turning, braking, and throttle control, then proceed to advanced techniques, such as sliding, jumps, wheelies, hill-climbing, and more. If you've ever wanted to try dirt riding or if you're an experienced rider looking to sharpen your skill set, *How to Ride Off-Road Motorcycles* is a perfect riding coach.

Remember the smell of Castrol R at a 1960s scramble? Or riding a 1970s trials bike through every type of natural obstacle possible? If you want to revisit those memories, or relive the competition of earlier times, this book is for you. Buying, restoring, and riding classic off-road competition bikes is now something that you can do! This book gives enthusiasts of classic off-road competition motorcycles a step-by-step guide to a full restoration. Covering dismantling the motorcycle and its components, restoring and sourcing parts, paint spraying, decals and polishing. With chapters covering engine, frame, forks, fuel, exhaust, seat, brakes and tyres, you'll see how to take a bike from scratch to a full rebuild; then on to safe set-up and general maintenance. Includes chapters focussing specifically on pre-65 and twin shock models.

How to Ride Off-Road Motorcycles

Chevy Tri-Five Custom Interiors is the first of a series of books featuring the work of Ron Mangus, well-known for award-winning custom hot rod interiors. *Chevy Tri-Five Custom Interiors* features four, two-page photographic spreads for beautiful, custom, award-winning 1955, 1956, and 1957 Chevy hot rods. The cars and interiors presented in the book will inspire readers and help them visualize interior design possibilities for their own cars. Detailed photographs of the interior features accompanied by Ron's captions explain the ideas behind the interiors—the design process, color and material selections, unique features, challenges, sound system solutions, and some of the creative problem-solving needed to work out the design. Ron is continually asked by customers and hotrod enthusiasts for pictorials of his interiors to enjoy and inspire, and this series answers the desire for a presentation of his creativity and innovation.
